

A HIGHWAY ACROSS THE CONTINENT

Is Recommended by the
Trans-Mississippi
Congress

PARCELS POST MENACE

To Small Towns Is the Claim and
Was Not Indorsed by
Committee.

Kansas City, Mo., Nov. 18.—After selecting Salt Lake City as the meeting place for 1912 and Kansas City, Mo., as official headquarters, the 221 annual session of the Trans-Mississippi Commercial Congress finally adjourned.

Although the date for holding the next meeting was not definitely decided on, it was tentatively agreed to convene during the last week of next August.

The official headquarters was fixed for only one year. E. J. Becker of this city, was elected Treasurer.

A resolution was adopted asking that the congress meet at a Pacific Coast city in 1915, the year of the Panama-Pacific Exposition.

Consideration of the report of the committee on resolutions occupied most of yesterday's session, the report was adopted as submitted.

The committee rejected a resolution favoring a parcels post, declaring such a law would be a menace to the development of small towns and recommended the Interstate Commerce Commission for beginning action intended to lower the express rates on small parcels.

The committee rejected resolutions favoring woman suffrage.

The resolutions, among other things, urged the nation to issue \$500,000,000 in bonds for the improvement of the rivers and harbors from the Atlantic to the Pacific and from the lakes to the gulf.

Indorse the establishment of a National Department of Health.

Declares in favor of government aid for the construction of good roads, including the project for a national highway from ocean to ocean.

Favor the deepening of the Galveston Harbor to 35 feet at low tide.

The committee on permanent organization recommended the following officers to the convention for the coming year:

President, A. C. Trumbo, Muskogee, Okla.; first vice president, H. G. Moore, Kansas City; second vice president, Walter Hill, St. Louis; third vice president, Lewis Fisher, Galveston, Tex.; fourth vice president, Richard S. Jones, Seattle.

A feature of the day was an address by Martin Egan, proprietor of the Cable-News, Manila, P. I., who said:

"The man who proposes to sell to the people, the majority of whom constitute the only Christian race in the Orient, do not know the temper of the Christian people of the United States. Such a barter or abandonment would be an act of barbarism to the Filipino that would make the name 'American' a reproach in the world."

Mr. Egan, one who had signed minority report on the parcels post recommendation, said that the discussion on the resolution in committee had been one-sided, and that persons opposed to it did not have a proper opportunity to submit arguments.

"I am opposed to snap judgment on this question," he said. "It is beneath the dignity of this congress to treat such an important matter in this manner."

E. C. Laster, president of the Texas Cattlemen's Association, declared that the parcels post would be of great benefit to the rural regions.

The congress did not openly indorse the plan of the National Monetary Commission to change the currency and banking system of the country, but the resolution adopted stated that the plan "may be a step in the right direction."

It was recommended that the plan be carefully considered, "as the monetary system of the United States is inadequate for the needs of the country," and remedial legislation is urgently needed.

FIFTEEN DROWNED.

Quebec, Nov. 18.—Fifteen of a crew of 18 men lost their lives last night when the Norwegian bark, Antigua, was driven ashore at Martin River. The Antigua was loading at Martin River, below Quebec.

TRIBUTE PAID TO JUSTICE HARLEN

Cincinnati, Nov. 18.—Prominent attorneys from eleven points of the sixth judicial district paid tribute to the late Justice Harlen at memorial services held in the rooms of the United States Circuit Court of Appeals here today.

WOMEN AID IN THE PAVING OF STREETS

Bellefontaine, Nov. 18.—Impatient with the slow progress being made in the paving of the streets here, the womenfolk today took their teakettles for tar buckets and aided their husbands in the work. A public justification is planned upon the completion of the work.

DELEGATES PROMISE SUPPORT

Cincinnati, Nov. 18.—Herbert Bigelow, progressive candidate for the

HERBERT S. BIGELOW

presidency of the constitutional convention, has received the written pledges of 33 of the 119 delegates to support him for the presidency.

YOUTHFUL FLOPER SPANKED BY THE GIRL'S FATHER

Hammond, Ind., Nov. 18.—The romance of fifteen year old Hazel Davidson, of Chicago, who eloped to Hammond yesterday with "Ducky Bird Graham," the "King of the Kenzie Avenue Gang," was shattered in humiliating fashion shortly before midnight in Hammond, when Henry Davidson, the girl's father, took young Graham across his knee in the waiting room of the New York Central depot and spanked him until he howled. Then Davidson took Graham by the scruff of the neck and booted him out into the cruel night, before the daughter, whom Graham had called his beautiful cash girl.

Graham, a dapper youth of 17 claiming to be employed at the American theatre, eloped to Hammond yesterday with Hazel, but could not get a license.

The parents of the girl are prominent and wealthy. When they missed her they burned up the Indiana roads in a big touring car, and finally spotted the elopers in the depot. After tramping Graham sufficiently Davidson bundled his daughter into the car and started home.

THREE CLUBS RAISED TO A A CLASS

San Antonio, Nov. 18.—By a vote of 25 to 3 the fight for special A. A. classification was won by the Pacific Coast League, Eastern League and the American Association at the session held today by the National Association of Professional Baseball Leagues. The Western League, the Three-I League and the Mink League voted against the classification.

CASTRO'S TROOPS WERE DEFEATED

London, Nov. 18.—The Venezuelan contest here today was notified that Ex-President Castro, at the head of a large body of revolutionists, has met with a disastrous defeat at San Cristobal. News of the present revolution has been carefully concealed by the Venezuelan government, and heretofore it has been insisted that Castro had no part in the revolution now on. It is known that recently Castro has been residing on his ranch at Cuenca, Colombia, less than 50 miles from the point where his forces met defeat.

GREAT BATTLE IS EXPECTED BEFORE NIGHT

Shanghai, Nov. 18.—It was expected here today that the revolutionists and the imperial troops would come together in the most decisive battle of the war before nightfall in some of the districts between Ching Kian and Nanking. During the past three days the rebels have been re-enforced by men and ammunition and provisions from this city.

Today they are advancing upon Nanking, while other bodies of rebel troops are converging upon the imperial forces with the intention of making an attack upon three sides. Well equipped and officered, the rebels are in a frenzy of haste to engage the loyal troops in conflict. Many have dead relatives to avenge and all are wrought up to an extent of great pitch by tales of the barbarities committed by soldiers at Nanking, when 20,000 Chinese were slaughtered.

The imperial forces consist of 7000 men and they are short of ammunition and poorly equipped with artillery.

Amoy, Nov. 18.—The foreign consuls have taken charge of the imperial customs house and the postoffice. This action was taken because the imperial authorities are ineffective here and the consuls refused to recognize the republic. Detachments of rebels have been sent into the interior to preserve order.

BUSINESS MEN BACKING FIGHT FOR THE "WETS"

Greenville, Nov. 18.—A petition for a local option election was started yesterday in Darke county. Today reports indicate that there will be 5000 signers. The required number of signers in the county is 3700, and the petition will be filed this evening. The campaign for the wets is being conducted by D. L. Matchette and S. L. Brenner, backed by the Darke County Business Men's Association.

WOULD DELAY THE OPTION ELECTION

Lebanon, Nov. 18.—The county option election which was to have been called by the commissioners of Warren county Thursday, is indefinitely postponed as the result of a technicality raised by Superintendent Eldridge of Cincinnati, superintendent of the Anti-Saloon League. He appeared before the commissioners at their special meeting for the purpose of calling the election and called attention to the fact that several of the electors in towns and villages had failed to write their addresses in the columns provided for addresses. Should the commissioners issue the call for the election, he proposes to have the call nullified and to enjoin the election board from holding the election.

FOUR FROZEN IN BLIZZARD

Kamloops B. C., Nov. 18.—Four persons were frozen to death in a blizzard near this city yesterday. The victims are John Keeler, a rancher, his two young nieces and James A. Tronson, a brother-in-law to Keeler.

They were overtaken by a storm while returning to the Keeler ranch from Kamloops in a sleigh and lost their way.

Searching parties found the sleigh, containing Keeler and the younger child, cuddled between his knees. Tronson's body was found a few feet from the sleigh under two feet of snow. The body of the older child has not been found, although several searches have braved the blizzard and five feet of snow in quest of it.

STORM BRINGS WRECKS AND ONE DEATH

Alpena, Nov. 18.—The schooner, William A. Young owned by Robert Pringle of Wickline, O., was sunk in yesterday's storm on Lake Huron. The crew reached shore after a harrowing experience.

Detroit, Nov. 18.—A special here from Alpena, Mich., states that the bay is dotted with a dozen or more vessels crippled in yesterday's storm. One barge was sunk and one fatally reported when a deck hand was washed overboard.

LOSS OF WIFE'S AFFECTIONS COST \$8000 DAMAGES

Xenia, Nov. 18.—Establishing a precedent in the Ohio courts, the common pleas court of Greene county last night awarded \$8000 damages to Frank Sutton, the plaintiff.

ROOSEVELT MAY ENTER THE LISTS

Predicted He Will Become
One of the Presidential
Candidates.

WALL STREET PLEA FOR

With Outlook and Would Support
the Colonel—LaFollette for
Running Mate.

New York, November 18.—With the digestion and discussion of Colonel Theodore Roosevelt's declaration on legislation affecting the trusts, and his attack on the decision approving the reorganization of the Tobacco corporation, the consensus of opinion is that the former president has entered the arena for the Republican nomination for president against William H. Taft.

Big politicians in both parties expressed themselves in public or private that the Colonel has his eye on a third term, and that LaFollette will be his running mate on a platform built on latest Progressive ideas.

Wall street gave its plaudits today to Roosevelt's ideas and it would not surprise many to see the "street" marching in the "Teddy" column and advancing chunks of the sinews of war.

The World last evening publishes the following special dispatch from Washington.

"Official Washington, preferring to maintain silence upon the declaration of Theodore Roosevelt upon the subject of legislation affecting 'Big Business,' united in the view that the new Roosevelt-broadside was in effect an announcement of the opening of a campaign for the next presidential nomination. Linked with Roosevelt in the official gossip was the name of Robert M. LaFollette, of Wisconsin.

"The politically wise thought they read in the stars which the Colonel knocked from the trusts' firmament, the making of a political slate in which he is to head the ticket with LaFollette as a representative of the progressive element of the west, as his running mate. There did not appear to be any serious doubt in any quarter that this was the logical result of the Roosevelt pronouncement.

"As this political view was taken of the case it was surprising that President Taft and the members of his official family declined to comment upon Colonel Roosevelt's views of the Sherman law prosecutions.

"The news came from the White House to the waiting interviewers that the president would make no statement with reference to the article. Attorney-General Wickersham declined to see anyone who called with the statement that an interview on Roosevelt was wanted. Secretary Knox, Secretary Meyer and Secretary Nagel followed the Presidential lead.

"When a suggestion was sought of what course the president would follow it came in the form of a mere intimation that the administration would in future push its trust prosecutions with more vigor than ever, and that the Steel Trust would be made to toe the mark in jig-time. It was also intimated that the criminal prosecution of the Beef Trust would be most vigorous.

Colonel Roosevelt's attack upon the decree of the United States court for the Southern District of New York, approving the Tobacco Trust's plan of disintegration and reorganization, was directly inspired by attorneys for the independent tobacco interests opposing that plan.

The statement is made upon the authority of one of the attorneys of the independents. It was he who appealed to the former president for his aid in the efforts being made by the independents to induce Attorney General Wickersham to carry the Circuit Court's approval to the Supreme court at Washington for review.

The editorial was submitted to the lawyer for the independents a week ago. The attorney went over it carefully with the ex-president, and suggested several amendments and additions, all of which were adopted by the illustrious writer.

It was also learned today that the independent interests have not yet despaired of getting the Circuit Court's decree before the Supreme Court at Washington for review. To achieve this end one of two ways is now being considered by their attorneys. Mandamus proceedings may be instituted in the Supreme court, directing the Circuit court here to reopen the case long enough for the independent protestants to the trusts plan to be made parties to the litigation.

If this proposal should not avail,

BARONS OF THE BEEF TRUST MUST ANSWER IN COURT NEXT MONDAY

Chicago, Nov. 18.—The government won another move in the big fight to bring the beef packers to justice today, when Judge Kohlsaat, in the United States court here, quashed a writ of habeas corpus issued several days ago.

This decision means that after nine years of legal delays, the packers must go on trial next Monday. Attorneys for the packers maintain that an appeal to the supreme court will act as a stay of proceedings, but this is believed improbable.

Hearing arguments, Judge Kohlsaat refused to interfere with the date of the trial, and the packers filed another appeal to the supreme court.

"Under the law," said counsel for the government, "when a writ of habeas corpus is denied, the respondent must be remanded." . . . "Your honor's order to remand is void," said Mr. Mayer, counsel for defense, "and we shall find that unless care is taken with this question, it will become snarled and there can be no adjudication."

In granting the petition to quash the writ, Judge Kohlsaat said: "On a reading of the case in the habeas corpus acts that have been before the supreme court, it is claimed that the grant of such a proceeding is not favored by the court and it appears that the petitioners rely upon the allegation as to the magnitude and volume of their business, which would entail great loss should the supreme court hold the proceedings unconstitutional after the trial is held. It therefore develops that this court cannot take jurisdiction of the big corporation proceedings under the circumstances presented."

Washington, Nov. 18.—The United States government will fight the efforts of the Chicago beef barons to secure a stay of the proceedings in their trial through an appeal to the supreme court.

then some of the attorneys for the independents probably either Felix H. Levy, of New York, or Louis D. Brandeis of Boston, will appeal directly to the Supreme Court for redress.

MURDERS EMPLOYEE OF COMPANY

Scranton, Pa. Nov. 18.—Wm. Peter Vishe, 21, of Kingston, discharged from the service of the U. S. Express company Thursday, was arrested early today for the murder of express messenger, Irvin G. Berger, on the Lackawanna railroad between Taylor and this city last night. Vishe confessed to killing Berger. He was riding in a car with Berger's permission at the time the crime was committed.

EIGHTEEN HUNTERS HAVE BEEN INJURED

Hunting Casualties to date—
Killed 1
Wounded 18
Columbus O., Nov. 18.—Three hunters injured, but no deaths made up Friday's casualties in the hunting season, making the total 18.

MAN FIRING SHOT SCARED.

Marysville, Nov. 18.—The first hunting accident of the season in this vicinity occurred today when Tronnie Price of Marysville was accidentally shot by a Columbus hunter in Allen township. Several shot entered Price's body but the Columbus hunter being at long range saved Price's life. The Columbus man who fired the shot was the worse frightened of the two, and was so prostrated that it was necessary to take him to a farmhouse for a time. Price's wounds are not considered serious.

HUNTER NEARLY DROWNED.

Bellefontaine, Nov. 18.—The weight of the rabbits he was carrying nearly lost Paul Sayre his life. Carrying a sack of rabbits, he went into a pond to get a duck he had shot, thinking the water was shallow. He went beyond his depth and sank like a stone. Companions dragged his unconscious form from the water.

BOY MAY LOSE SIGHT.

Coshocton, O., Nov. 18.—The face of William Elks, aged 16, was peppered with shot yesterday that had glanced from a rock when his companion, Ernest Baumgardner, tired at a rabbit from an opposite side of a brush heap. Elks may lose his sight.

KILLED WHEN SNOWBALLING.

Bellefontaine, O., Nov. 18.—Herbert Shadley, 12 years old, was snowballing some companions near Spencer, and did not see an approaching Ohio Electric car. He was struck by the car and instantly killed.

ARTIFICIAL EYES ARE CONFISCATED

Columbus Nov. 18.—Alleging that the importer had been careless about paying customs, customs officers today confiscated a lot of artificial eyes belonging to the Franklin Optical company of this city. It was charged that a wholesale optician now under arrest in New York had smuggled into this country a lot of artificial eyes. The government agents left for Chicago, St. Paul and other western cities on the trail of other eyes sold to unsuspecting opticians.

MINISTER'S WIFE WAS JEALOUS OF OWN CHILDREN

Atlanta, Ga. Nov. 18.—Simultaneously with the acceptance of his resignation from the Georgia Conference, Rev. Benjamin Graham, late pastor of the St. James Methodist church, has filed suit for absolute divorce against Mrs. Lorah Harris Graham, charging neglect, cruelty, fear of bodily harm to himself and his children, unwarranted jealousy of his own children and all the ladies of his parish, which often culminated in wild manifestations of jealous rage, embarrassing to him and his church.

"My wife is a child hater," he said, "and her own mother admits that she is. Before our marriage she was for a number of years a schoolteacher, having had charge at Covington, Colorado and Athens. Her work, I think, is the cause of her unusual feeling toward little ones.

"Her treatment to me and my children has been as cruel as it was unwarranted, and although I have not believed in divorce, I now find that it is the only thing possible for the sake of my children. Knowing the intense feeling against divorce entertained by many good members of the church, I thought it best to resign from my pastorate before taking the action.

Any attention whatever that I might show either of the children brought on a jealous rage on the part of my wife. In the morning if I were to kiss my little girl, Mrs. Graham would fly into a tantrum. If I kissed the child at the breakfast table, she would immediately leave and sometimes it would be days before I could induce her to speak to me. She declared that when I kissed my own child she felt exactly as if I were kissing another woman."

He also stated that his wife was very jealous of any attention he paid to the ladies of his congregation.

NIGHT SCOUTING IN AEROPLANES IS A SUCCESS

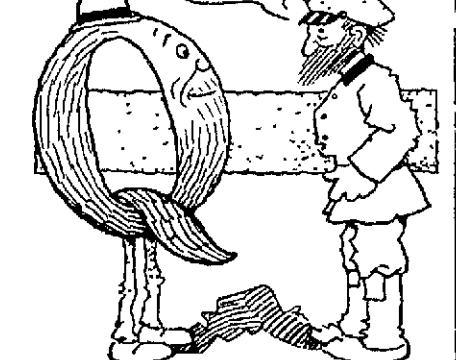

Washington, Nov. 18.—Night scouting in aeroplanes equipped with incandescent acetylene search lights is today an assured success. Scouts from the United States school last night successfully surveyed the surrounding hills after mounting high in the air and returned without the aid of watch fires.

POSTOFFICE IS ROBBED.

Elkins, W. Va., Nov. 18.—For the second time in about a year the postoffice at Beverly was robbed. Burglars blew the same, getting \$50 and \$482 worth of stamps.

WHAT IS IT?

LIFE STORY FROM CELL OF WOMAN

Excites Sympathy and She
is Recipient of Encouraging Letters

BLAMES A RICH SUITOR

For Troubles Which Culminated
in the Shooting of Her
Husband.

Denver November 18.—The trial of Mrs. Gertrude Gibson Patterson, on the charge of murdering her husband, Charles K. Patterson, will begin next Monday, and the prisoner has given to the press what she says is a sketch of her life.

Mrs. Patterson today seemed less concerned over the fate a jury may have in store for her than the effect her story will have on her mother. The prisoner said it would break her mother's heart to learn that she was never formally married to Emil Strauss, a Chicago clothing manufacturer, whom she has heretofore mentioned as having been blackmailed by her husband.

The biography read in part: "When I was sixteen years old, I went with my sister, Mrs. Farnham and her husband to Chicago. We stopped at a hotel, where a friend of my sister introduced me to Strauss. He was much older than I, for at that time my hair hung in a braid down my back, but he was very kind. He asked me to marry him, but said that first I must go to school and study."

"After many conferences with my people, he took me to Paris. His intentions always seemed to be honorable. In that city he provided me with a tutor, arranged for my taking music lessons, and departed almost immediately. I was very happy, and worked very hard at my studies, as I wanted him to be proud of his future wife."

Mrs. Patterson said that they corresponded for five months at the end of which time, responding to a cable from Strauss, she returned to New York, and, in company with her benefactor, went to Chicago, where Mr. Strauss registered for both of them. Their rooms were adjoining. It was here Mrs. Patterson declares that Strauss began to renew his promise of marriage, but he always postponed the wedding day.

"I was so miserable and unhappy, although he gave me everything," the narrative says, "for when I thought I had him persuaded, he would put me off again, until one day he sent me back to Paris."

"The fall of the same year he came for me again. This time, he told me that he had given out the information that we were married and that everyone believed it."

"So we came again to Chicago, where we stopped at a hotel in which Mr. Strauss was financially interested."

"For five years I lived with him as his wife. He introduced me as Mrs. Strauss wherever we went and to his friends. No one ever questioned that I was married to him, and all that time I begged and pleaded and coaxed him to marry me. I wanted so much to be like the other women I knew."

Miss Gibson, as she was then, met her future husband, Charles K. Patterson, at a skating rink. They became great friends and, although she told him her story, he asked her to become his wife and expressed a desire to meet Mr. Strauss.

"After his talk with Mr. Patterson Mr. Strauss came to me and said that he was glad that the biggest thing in life had come to me and he wanted me to be happily married," the narrative continues.

Strauss, the biography says, had given Patterson \$1,500, which Mrs. Patterson supposed was a wedding present. During a quarrel with her husband she asserts that she learned this was the sum given Patterson for making her his wife. Thereafter, she declares, life was one long humiliation filled with Patterson's attempt (Continued on Page 2, Col. 4.)

FREIGHT RATES ARE REDUCED

Washington, Nov. 18.—Material reductions in the class freight rates between the Mississippi river and Missouri towns were ordered today by the Interstate commerce commission. These reductions will make proportionate reductions in the rates between the Atlantic coast and Missouri river towns.

THE LODGES

I. O. O. F.
Olive Branch Lodge met in regular session Tuesday evening. Nothing but regular business was transacted. One candidate was elected to membership next Tuesday evening, Nov. 21, the initiatory degree will be conferred. Let every member of Olive Branch make it his business to be there. Next Tuesday evening is also first nomination night. Brothers, get a move on and help to boom Olive Branch.

Newark Lodge, 623, met in regular session Monday evening, Nov. 13, with a good attendance. There was no degree work. On Monday evening Nov. 20, there will probably be work in the second degree.

All brothers are earnestly requested to attend the lodge especially at the present time. The time is at hand when grand and subordinate lodge officers are to be elected and it is your duty to be present and interest yourself in this part of the work, besides other important matters which are coming up each evening.

It is one of the immutable laws of nature that you lose that which you make no use of. If you do not attend lodge you will forget what you have learned of the work of the order. Brothers there is a marked distinction between an Odd Fellow and a member of the order. Think this over carefully and if you decide after giving yourself all the credit justly your due, that you are not in the former class—get busy—and give your lodge the benefit of the influence a pure life and earnest endeavors will create.

Visiting brothers are not only welcome but we earnestly entreat them to call and give us the benefit of their experience.

Encampment met in regular session Thursday evening Nov. 16 with the best attendance we have had for months. The evening was enjoyable spent in degree practice after the many important business matters had been disposed of.

Patriarchs do not overlook the important event to take place at Columbus on the evening of Nov. 23. This will be a revelation to those who have not previously witnessed the conferring of the patriarchal degree in amplified form.

The name huster, although a colloquial term, expresses much, are you making good? The Peewees are holding their own, and without doubt will win out in the contest which is growing in interest each day. Are you a Canton? This branch of the order to which all Odd Fellows should belong, especially the younger members if they wish to get the fullest enjoyment from their associations with Odd Fellowship.

It is the superstructure of the work, mounted on a substructure of the imperishable rocks of subordinate and encampment Odd Fellowship.

Red Men.

Minnewa Tribe No. 52, Improved Order of Red Men, met in regular council on Friday night with a good attendance of the chiefs and members. The visiting relief chiefs reported all brothers sick getting along as well as could be expected. Five brothers of the Warriors' degree were found and instructed in the mysteries of the chief's degree which entitles them to all the rights and privileges to which the chiefs in council. Several applications for membership were received and committees appointed upon same. The three captains are working hard to be the lucky one to present the most new applications before the first of the year and each captain requests the men under him to take the trail and endeavor to bring in at least one application for the new meeting.

On Friday night December 1, the officers of Minnewa tribe will be elected for the year 1912, and it is the desire of the officers that a big turnout be present on that night. Also on the same night the Past Sachems of Minnewa tribe will cast their votes for the election of great chiefs for the Great Council of Ohio and every Past Sachem of Minnewa Tribe should make it his business to be present. At the last election for great chiefs we had 39 Past Sachems present and this year we want to have all of the 48 past sachems present if possible.

Since the first of July there has been 13 adoptions and three reinstatements and if we want to win one of the trophies offered by the Great Sachem for an increase of 25 from July to January, the brothers will have to get busy.

Don't forget election night, December 1, adoption of a class of candidates and election for Great Chiefs all on December 1. Come out and cast your vote and if you are a past sachem you get two votes on the same night.

Modern Woodmen.

Cedar Camp, No. 4727, M. W. of A, met in regular session on Monday night. One application for beneficial membership was received and elected and one candidate adopted as a beneficiary member.

On Tuesday night, November 21, Buckeye Camp of Zanesville will adopt a class of candidates and will put the work on in dramatic form and a great many of the members of Cedar Camp are making arrangements to go down and witness it. Full arrangements as to how the members will go will be discussed at the next regular meeting. All the neighbors thinking of making the trip next Tuesday night should be at the next regular meeting.

On Monday night, November 27, Cedar Camp will have an open meeting and all Modern Woodmen, wives and their friends are invited. A good musical program has been arranged.

and after the program is over dancing will be indulged in. The committee on arrangements has requested that as this is a meeting for the adults please leave the children at home. Neighbors F. L. Imbody, Frank W. Handel and C. G. Richardson were reported at the last meeting as being sick and the neighbors living close to these neighbors are requested to call on them. At the next regular meeting of the camp there will be candidates to receive the work. On the first regular meeting in December officers for Cedar Camp for the year 1912 will be elected.

Royal Neighbors.
Daisy Camp 2574 met in regular session with a fine attendance. A large amount of business was disposed of after which a bounteous lunch was enjoyed by all. At the next meeting, Nov. 22, a short program has been arranged by a committee and all members are urged to come out and enjoy it. Meeting begins promptly at 7:30.

Daughters of Veterans.
The Daughters of Veterans met Tuesday evening and had a very pleasant and profitable evening. The sick was reported much better. After the roll call there was a little departure from the regular business. The Tent presented with pleasing ceremony a beautiful silver spoon to the first born babe of the Tent, also gave him the name of William McKinley Long. Mrs. Hickman read an original poem suitable to the occasion which was well received. Matters of importance will be brought up at our next meeting, Nov. 28, and it is necessary that every member attend.

Knights of Pythias.
At the regular meeting of Roland Lodge No. 305, Tuesday evening, there was a good attendance, but only routine business was transacted. W. T. Howard, who has been on the sick list for several weeks, suffering with stomach trouble, is reported somewhat improved. John Haptle is able to be on the streets for short walks. James McGough enters on his tenth week of sickness with every indication of speedy recovery.

The Page rank will be conferred on Tuesday evening.

D. O. K. K.
There will be a special meeting of Kootah Temple, D. O. K. K. Wednesday evening, November 22, at the K. of P. Hall. All members whether in good standing or not, who would like to see interest in the order revived are urged to be present.

G. A. R. Open Meeting.
Program at G. A. R. Hall Sunday afternoon 2:00 p. m. The public is most cordially invited.

Prayer—Chaplain B. D. Barr.
Opening Song—Audience.
Solo—Will Downey.
Address—Judge Ashman, of Coshocton, Ohio.
Solo—Miss Minnie Brown.
Reading—Prof. Jno. Stroup.
Violin and Piano—Misses Phalan and Dregan.
Benediction—Audience.

THE HERPICIDE GIRL

ADVISES GENTLEMEN.
At Mrs. Blank's reception I met a gentleman who fulfilled my ideal of a man in all but one particular. He had a good head, fine physique, good manners, was a most interesting personality and bore himself with the distinguished air of a gentleman. His linen was immaculate and his clothes faultless as to cut and material. But all the pleasant first impression was ruined when I discovered the collar and shoulders of his dresscoat covered with loose hair and flakes of dandruff.

To me this was an indication of personal carelessness, not to say uncleanness. I wanted to tell him to get a bottle of Newbro's Herpicide. This remarkable remedy would, in a short time remove every trace of dandruff from his head, stop his hair from falling and prevent him from becoming bald. I don't like bald-headed men; they look old whether they are or not.

Dandruff is caused by a germ and Newbro's Herpicide kills that germ. The itching, which is so frightful with dandruff stops almost instantly. Herpicide is the Original Remedy that destroys dandruff. There is nothing in the world just like it, nothing that is "just as good."

One dollar size bottles are guaranteed by all druggists to give satisfaction.

Applications obtained at the good barber shops.

Send ten cents in postage for a sample bottle and booklet to The Herpicide Co., Dept. R, Detroit, Mich. W. A. Erman & Son, Special Agents.

AMERICAN TROOPS ARE IN READINESS

Washington, Nov. 18.—Commanders of the American troops now in the vicinity of the Mexican border today were ordered to hold themselves in readiness to proceed immediately upon request from the federal office to enforce a neutral law of the United States.

Ladies' Velvet Shoes, \$2.00. Stephan's, Fourth and Main.

USUALLY ONE DOSE RELIEVES INDIGESTION

There would not be a case of indigestion here if readers who are subject to stomach trouble knew the tremendous anti-ferment and digestive virtue contained in Diapepsin. This harmless preparation will digest a heavy meal without the slightest fuss or discomfort, and relieve the sourdest acid stomach in five minutes, besides overcoming all foul, nauseous odors from the breath.

Ask your pharmacist to show you the formula, plainly printed on each 50-cent case of Pape's Diapepsin, then you will readily understand why this promptly cures indigestion and removes such symptoms as Heart-burn, a feeling like a lump of lead in the stomach, Belching of Gas and Eructations of undigested food, water brash, Nausea, Headache, Biliousness and many other bad symptoms; and, besides, you will need laxatives to keep your stomach, liver and intestines clean and fresh.

If your stomach is sour and full of gas, or your food doesn't digest, and your meals don't seem to fit, why not get a 50-cent case from your druggist and make life worth living? Absolute relief from stomach misery and perfect digestion of anything you eat is sure to follow five minutes after, and, besides, one 50-cent case is sufficient to cure a whole family of such trouble.

Surely, a harmless, inexpensive preparation like Pape's Diapepsin, which will always, either at daytime or during night, relieve your stomach misery and digest your meals, is about as handy and valuable a thing as you could have in the house.

ATTENTION, G. A. R.

Do not forget that tomorrow is the day for the G. A. R. open meeting. Judge Frank Ashman of Coshocton, one of Ohio's greatest orators, will be with us, and those who miss hearing him will have side-stepped a rare treat. Everybody welcome. R. C. Bigbee, Post Commander.

OHIO GAMES.

Cleveland, Nov. 18.—Football games in Ohio are State vs. Oberlin, Reserve vs. Carnegie College, Case vs. Buchtel, Denison vs. Kenyon, Miami vs. Cincinnati, Wesleyan vs. Oberlin, Wittenberg vs. Ohio and Hiram vs. Union.

WE SERVE

Depositors and borrowers. We pay depositors five per cent interest on their money and loan it safely to would-be home owners at six. We help people get homes. We encourage people to save their money, our aim is to be of real service to both. The Buckeye State Building and Loan Company, Rankin building, 22 West Gay Street, Columbus, Ohio. Our assets over \$5,000,000. The patronage of the reader is respectfully solicited.

NOTICE

We, the undersigned, will not allow any hunting or trapping or trespassing on our farms: George F. Hupp, Clement T. Richter, Arthur J. Smith, J. W. Frush, Samuel Hupp, George Frush, Wm. Courson, J. M. Daugherty, Oliver Frush, George W. Reid.

Miss Bida Johnson, who has been visiting at the home of her sister, Mrs. James Cooper, in Buena Vista street, leaves this evening for Milwaukee.

Mr. and Mrs. F. B. Wilson of Newcometown, O., are visiting at the home of Mr. and Mrs. S. Adams on South Second street for a few days.

Mrs. Frank Maurath left today for Pittsburg where she will be the guest of friends and attend the wedding of Mr. Dan Felix and Miss Margaret Beiler.

Warner J. Devoe and Harry D. Hale will spend Sunday at Mt. Vernon at the home of Des B. Kirk, who is enjoying a several days vacation from his newspaper duties on the Canton News-Herald.

Mr. J. H. Roe of East Main street and Mrs. Mary Brown of West Main street have returned from a six weeks visit in Indiana, Illinois, Wisconsin, and Iowa. They visited all the principal cities of the four states and report a most delightful trip.

ECZEMA

(Also Called Tetter, Soap Rheum, Pruritus, Milk-Crust, Weeping Skin, etc.) ECZEMA CAN BE CURED TO STAY

and when I say cured, I mean just what I say—CURED TO STAY, and not merely by patching over, or while it returns worse than before. Remember I make this broad statement after putting ten years of my time and thought into it, and handling in the mean-time a quarter of a million cases of this dreadful disease. Now, I do not care what you have used, or how many doctors have told you that you could not be cured—all I ask is just a chance to show you that I know what I am talking about. If you will write me TO DAY, I will send you a FREE TRIAL of my mild, soothing, guaranteed cure that will convince you more in a day than I or anyone else could in a month's time. If you are disgusted and discouraged, or are tired of trying to cure yourself, or are tired of giving me a chance to prove my claims. By writing me to-day you will enjoy more real comfort than you have ever thought of. I will give you what I am telling you the truth. Dr. J. E. Cannaday, 3421 Park Square, Seattle, Wash. Third National Bank, Seattle, Mo. Could you do a better act than to send this notice to some poor sufferer of Ecze-ma?

LIFE STORY

Continued from Page 1.)

to make her procure money from Strauss.

According to her story, Patterson even proposed that she become an inmate of a resort in Chicago. She states that one of Patterson's schemes was that she should inveigle Strauss into a compromising position by means of which he might be blackmailed.

The jail carrier's overburdened with letters of sympathy and encouragement from all quarters. Her mother is expected here today from Sandoval, Ill., to remain with her during the trial.

Attorney Hilton declares he has recovered Patterson's bank book showing that he deposited \$1,500 to his own credit on the day of his marriage to Gertrude Gibson.

Mrs. Patterson shot her husband while walking together in a suburb on September 25.

"I wouldn't let a doctor cut my foot off," said J. D. Ely, Bantam, O., "although a horrible ulcer had been the plague of my life for four years. Instead I used Bucklen's Arnica Salve, and my foot was soon completely cured." Heals burns, boils, sores, bruises, eczema, pimples, corns. Surest pile cure. 25c, at F. D. Hall's.

THE FASHION.

Stella—Is it a one-piece frock?
Bella—No; she told me herself that it includes three pieces of her husband's mind.—Harper's Bazar.

T. L. Davies "MENTOR"

The Only Real Comfort Underwear for Ladies and Children

We are the exclusive agents in this city for "MENTOR" COMFORT UNDERWEAR. This well known and widely advertised brand needs little comment, for most people know of its extraordinary qualities. Every garment is knitted on a spring needle machine, thus giving it that elasticity which is found wanting in so many inferior brands. It will readily stretch one-third of its regular size and still hold its shape. It is the only underwear that is shaped on the exact lines of the human body, being larger over the bust, hips and thighs, producing a natural, comfortable feeling that is lacking in the ordinary kind. You are assured of perfect workmanship, as each garment is examined seven times before it leaves the factory. All raw edges are silk embroidered, making it more durable as well as handsome. Fill your underwear needs here—get something with a reputation and guarantee behind it. It costs no more than the inferior kind that sells at the same prices. When you think of underwear, think of "MENTOR"—when you think of MENTOR think of DAVIES, as we are exclusive agents in this county.

Ladies' Fine Fleece Lined Separate Garments at 50c and 59c
Ladies' Fleece Lined, Wool, Mercerized and Silk Suits at \$1.00 to \$2.75

Next Week's Schedule.

Monday, Nov. 20—Pirates vs. Diamond Edge.

Tuesday, Nov. 21—Imperials vs. Keen Cutters.

Thursday, Nov. 23—Indians vs. Calumets.

Friday, Nov. 24—Plainers vs. Bismarks.

YOUR KIDNEYS NEED CLEANING

Every Person, Healthy or Unhealthy, Ought to Give the Kidneys a Thorough Cleaning Right Now.

You clean your teeth daily. You wouldn't think of doing otherwise, and yet the teeth are not one tenth so important to health and strength and a long life as the kidneys.

Do you know that the kidneys are little strainers or fine sieves, through which every drop of blood in the body passes again and again?

And when the kidneys become clogged they are unable to strain the impure matter from the blood, and it stays in the blood and causes disease in various parts of the body. Take rheumatism, for instance, this terrible disease is caused by uric acid in the blood, and uric acid gets into the blood only when the kidneys are clogged up and are unable to properly strain the impurities.

Just go to Erman & Son today and get a bottle of Thompson's Barosma—the most scientific kidney, liver and bladder regulator the world has ever known, take it regularly for two weeks, and all the impure matter in your kidneys will pass out through the bladder, and your kidneys will be as pure and clean and healthy as any kidneys can be.

Thompson's Barosma is guaranteed by Erman & Son to cure all diseases of the kidneys, liver and bladder, or money back. It is a wonderful tonic and blood purifier and will bring the glow of health to the cheeks of the sick in a short time. 50 cents and \$1.00 a bottle. All druggists.

BASKETBALL.

When the Newark Y. M. C. A. basketball team opens the coming season on the "Y" floor Nov. 28 with the Columbus "Rep" team, it will probably have its old lineup in the game to start with. Livingston, who is coach at Denison, will be seen at center; Edwards, who has been elected coach at Ohio State, will be one of the guards, with either Reinhold or Lindemood the other. Lucas Woodward or Brown will probably be the forwards. It is impossible to say who will be the regulars this year, as there is an abundance of good players. A large crowd will probably be on hand for the opening game. Come out and root for the home team.

CONVENTION OF WOOL GROWERS

The annual convention of the National Wool Growers Association will be held in Omaha in December. In conjunction with it, a mammoth sheep show, the largest ever given, will be given. Dates of sale begin on December 11. More than 2,000 sheep growers will attend the convention, which will be the most important in the history of the association. Matters of moment will be discussed by men high in public life, who are interested vitally in legislation which affects the wool grower and the consumer. The Omaha show and convention will be held the week following the International Live Stock Exposition in Chicago. This makes it possible and also convenient for the Western and Central State flockmen to attend the international, learn the lesson of this great show and then attend the Omaha meeting and show.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by him.

WALDING, KINMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

TOLEDO KID WILL PLAY AGAIN TONIGHT

J. O. Ephardt, the boy from Toledo who will try hard this winter to land the world's pool championship, pleased the large crowd that was on hand at Wilson's pool room last night, so well that Mr. Wilson has re-engaged his services for tonight. Ephardt had no difficulty in defeating the local player, and his opponent's score was 100 to 48. He will play the best player on hand tonight 100 to 75 and wind up by putting on his exhibition of fancy and trick shots. 17-3t

FIVE MILLION SEALS IN OHIO

If expectations for the sale of Red Cross Christmas seals in Ohio this year are realized, five million of the holiday stickers will be sold. "Five Million Seals in Ohio," will be the slogan of the 1911 campaign. This will mean about one seal to every citizen in the state.

The State Tuberculosis Society will this year for the first time be state agent for Ohio, in handling the sale of seals. A new office has been opened in Cleveland under the management of S. Livingston Mather, and an initial order has been placed for 5,000,000 seals. In cities and counties where organized work is being carried on against the spread of tuberculosis the charge for the seals will be 25 per cent of the gross proceeds, the state agent furnishing the seals and advertising materials and making back all unsold seals at the end of the season. In all other parts of Ohio the State Society is placing its agents to sell the seals and 87 1-2 per cent of the proceeds goes to the State Society for extending throughout the State organized work for the prevention of Tuberculosis, while 12 1-2 per cent goes to the National Tuberculosis Association.

The sale of the seals begins at Thanksgiving time and continues until New Year's.

Wants are worth reading tonight.

SHAM PROSECUTION
OF STEEL TRUST

Why is the Wickersham suit against the Steel Trust one in equity instead of a criminal prosecution?
The Sherman anti-trust law carries a provision by which guilty trust magnates may be sent to jail. If it is possible to dissolve the Steel Trust under the Sherman law—and President Taft and Attorney General Wickersham boast that it is easy to dissolve every illegal combine in the land under this statute—why are not the men who organized and direct these illegal monopolies equally liable to successful prosecution.
With the fact admitted that it was in J. P. Morgan's library that the steel trust conspiracy was developed, that it was he who sent Gary and Frick to "see" President Roosevelt about the Tennessee Coal and Iron company merger, and that Morgan received \$20,000,000 in clear profit for his part in the organization work, it would appear to the lay mind that Morgan is just as liable to prosecution for having organized an illegal monopoly as said monopoly is liable to dissolution for being in existence in violation of the law.

Final results from the election in New Mexico are very gratifying to the Democrats. The entire Democratic state ticket has been elected and two Democratic congressmen.

"GUILT IS PERSONAL."

The American public is about convinced that trust magnates care little or nothing about "suits," as long as they are directed against corporations and not individuals, and especially if the government "trust busters" is to be a former trust attorney and a member of a political party whose campaign funds were supplied by the very trust he proposes to dissolve.
Rebating by railroads could not be stopped until the offense was made a penitentiary one. When that was done, rebating stopped.
A remote possibility of having to "dissolve" under a plan which they themselves can stipulate, (see Supreme court's acceptance of the tobacco trust's reorganization plans), or the

Loss of Appetite

Is loss of vitality, vigor or tone, and is often a forerunner of prostrating disease.
It is serious and especially so to people that must keep up and doing or get behindhand.
The best medicine to take for it is the great constitutional remedy
Hood's Sarsaparilla
Which purifies and enriches the blood and builds up the whole system.
Get it today in usual liquid form or associated tablets called Sarsatabs.

threat of a fine against the trust instead of individuals, has time and again proven an insufficient deterrent to trust magnates who see an opportunity to make millions of dollars annually by disregarding the law.
There is one thing that trust magnates are afraid of, and apparently one thing only. That is the penitentiary.
When an attorney general can be found who will enforce the only feature of the Sherman law that will cause trust magnates to really obey the law, and not until then, will the public be justified in expecting relief from trust oppression and the consequent high prices.

SAGE TEA WAS
USED BY OUR
GRANDMOTHERS

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.
The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.
This remedy is sold under guarantee that the money will be refunded if it fails to do exactly as represented.
If your hair is losing color or coming out, start using Wyeth's Sage and Sulphur today, and see what a change it will make in a few days' time.
This preparation is offered to the public at 50 cents a bottle, and is recommended and sold by all druggists.
Special Agent—F. D. Hall, 10 North Side Square.

MR. AND MRS. DAVIS
IN WRECK OF THE
"PENNSY" FLYER

A telegram received at the Licking Creamery this morning brought the news that the Pennsylvania flyer from Philadelphia to New York, was wrecked at Monmouth Junction, N. J., about 5 o'clock Friday evening, but that both Mr. and Mrs. W. H. Davis of this city, who were passengers, while badly shaken up, were uninjured.
The engine was turned over and several coaches thrown from the track, but only one person was badly hurt.
Mr. and Mrs. Davis have been in Philadelphia and Washington for the past week and were enroute to New York city when the accident occurred. They expect to spend several days in New York City before returning home.
Real Estate Transfers.

SO EASY TO GET RID OF
INSOMNIA AND NERVOUSNESS

Morse's Glycerole is Having a Wonderful Sale at T. J. Evans—It's a Vegetable Tonic—One Dose Means a night of Refreshing Sleep.
No wonder the people of Newark are flocking to the drug store of T. J. Evans—when he is selling a purely vegetable remedy on the money back plan and guarantees it for the following ailments:
Insomnia, brain fog, nervousness, restlessness, nightmare, lack of vitality, energy and confidence.
Morse's Glycerole isn't a patent medicine. Always bear that fact in mind. It is the prescription of a famous Toronto physician, and has been used in hospitals and by physicians in private practice throughout the English speaking world for 30 years.
The formula is printed on the label so that you can see for yourself that it does not contain a particle of morphine bromides or any coal tar product.
If you suffer from sleeplessness, that tired out feeling, despondency, or inability to perform your daily duties, get a bottle of Morse's Glycerole today. The healthful happiness that will come to you after a few days' treatment, will astonish your friends as well as yourself.
Morse's Glycerole will restore to perfect health any person suffering from nervous affections. Price 50 cents and a dollar a bottle, and guaranteed. Mind you—rigidly guaranteed.

BE GAY ANYHOW.

I don't care what the weather is. Let all kinds be invented! Let zephyrs zeph or blizzards bliz, I still shall be contented! All kinds have their peculiar joys to please the soulful native; naught atmospheric ever annoys the man appreciative. When joyous sunshine is on file I find it most entrancing; I kick my heels and run a mile to do some song-and-dancing. When rain is pouring from the eaves in endless torrents flowing, I watch the wet and sodden leaves and say: "The corn is growing!" This plan of thinking of the wheat when days are soaked and soggy, brings consolation full and sweet—just try it when you're groggy. When winter days are stark and dour, I seek my chimney corner and read "Nick Carter" by the hour, "Old Sleuth" and "Johnny Horner." When earthquakes jar this foolishness loose, or cloudbursts swamp the cities, I put my phonograph in use and grind out playful ditties. All weather is the same to me, and each day is a dinger; I'm happy as a humble bee that has a patient stinger.

JEWETT COMPANY COMPLETES
HANDSOME INTERURBAN CARS
FOR SEVERAL SOUTHERN ROADS

At the Jewett Car Works awaiting shipment may be seen 23 of the finest cars this well-known plant has made for some time.

Seventeen of the cars are for the Greenville, Spartanburg & Anderson railway and six for the Piedmont Traction Line, Charlotte, N. C. They are 60 feet long and contain four compartments, baggage on the front end, next the negro compartment, then the main passenger department, which is exclusively for the use of the whites, and the smoking compartment for whites only. There are two toilet rooms, one for the whites and the other for the negroes. These cars are built with these separate compartments in order to conform with the Jim Crow laws which are in effect in the states in which the cars will be used. The cars are finished throughout in solid natural mahogany, with holly and black inlay, and have brass trimmings, including 14-inch parcel racks, suitable for holding large suit cases and other baggage. The curtains are selected with a view to corresponding with the other interior furnishings and at the same time to harmonize with the seats, which are upholstered in frize medium green plush, excepting those in the smoking compartment of the whites, which are upholstered in real leather, green in color.

The lighting arrangement is quite unique, there being both side lights above each seat, as well as a large cluster running through the center of the dome of the cars. There is a double row of Gothic lights over the side windows, the interior glass being of an amber shade to correspond with the finish of the interior of the coaches, while the outside, as well as the deck lights, are of a beautiful shade of green.

The floor frames are of heavy steel, and the platforms, which are large and spacious, are equipped with Edwards' patented steel trap doors.

The exterior of the cars are painted in Pullman standard colors, all striping, lettering and numbering being done in gold leaf. They are mounted on extra heavy trucks, made especially for these coaches by the Baldwin Locomotive Works of Philadelphia. The cars will be shipped on their own trucks to Charlotte, N. C., by way of Pittsburgh, where the Westinghouse Electric and Mfg. Co. will install the motors, which will be of high horsepower capacity, about 15 h.p. each, in other words, about 75 h.p. motors for each car. They are now ready for shipment and will go forward just as fast as they can be handled by the Westinghouse Company.
When completed and ready for operation at Charlotte, the cars will represent an outlay of about \$18,000 each.

These cars will be used on roads under the management of the Mill-Power Supply Company at Charlotte, N. C., which company has a line over 200 miles in length in the Piedmont district, which not only operates traction cars, but also furnishes power for all cotton mills, etc., throughout the district. J. B. Duke, the millionaire tobacco king of New York, is president of the company.
In view of the fact that the Jewett Car Company received the order in the face of competition from eight or ten other car builders, it goes to show that the street cars built in Newark have an enviable reputation as coming out victorious over all competition, but not, however, until a committee of five men from the company had traveled over nearly all the eastern and central states, in-

duction to lead in 30 days.
State of Ohio vs. Thomas Brown, indicted by the September Grand Jury for robbery. The defendant entered a plea of guilty and was sentenced to one year in the Ohio Penitentiary. This defendant and James Kelly were charged with robbing James McCartney. James Kelly was tried and found guilty.

Demurrer to Amended Petition.
In the case of Albert Flinn vs. the Jewett Car Company, pending in the court of common pleas, the defendant has demurred to the amended petition filed in the case on the ground that the same does not state facts sufficient to constitute a cause of action. Kibler & Kibler are attorneys for the Jewett Car Company.

Motion to Strike Out.
In the case of Malinda Bishop vs. Solomon Crist, the defendant has filed a motion in common pleas court, asking the court to set forth the date when Lemuer Bishop died; to set forth the date on which the plaintiff claims defendant was appointed administrator and to strike out certain parts of the petition. Flory & Flory, attorneys for the defendant.

Notice of Hearing.
In the case of Albert Flinn vs. the Jewett Car Company, the plaintiff has been notified that the demurrer to the amended petition filed in the case will be pressed for hearing on Saturday, Nov. 25, 1911. Kibler & Kibler, attorneys for defendant.

Brief on Motion.
In the case of Malinda Bishop vs. Solomon Crist, Flory & Flory, attorneys for the defendant, have filed a brief on motion. Defendant says the claim, according to the statement of the petition, has existed for over 44 years; that if the claim ever did exist, it existed for a period of more than six years prior to the burning of the court house and would have been barred by the statutes of limitation. Flory & Flory, attorneys for the defendant.

A soft answer may turn away wrath, but sometimes it comes hard.

LEGAL NOTICE.

Joseph Makranyi and Elizabeth Makranyi, whose places of residence are unknown, but who are supposed to reside in Flint, Michigan, are hereby notified that on the 1st day of November, 1911, The Citizens Building and Loan Association of Newark, Ohio, filed in the Probate Court of Licking County, Ohio, a petition praying for the foreclosure of a certain mortgage executed on the 11th day of March, 1907, by said Joseph Makranyi and Elizabeth Makranyi, said Association for the sum of \$600, upon the South half of lot No. 1009 and the East half of lot No. 1011, in Henry Smith's addition to the City of Newark, Ohio, according to a Plat of said Addition recorded in Plat Book, Volume 1, pages 367 and 368 of the Record of Plats of said County.
Said petition alleges that the conditions of said mortgage have been broken and that the sum of \$600, with interest at the rate of 6% per annum, is due and owing by said Joseph Makranyi and Elizabeth Makranyi, said Association shall pay the same before the day of hearing. Said defendants are requested to answer said petition on or before the 9th day of December, 1911, or judgment will be rendered as prayed for in said petition.
THE CITIZENS BUILDING & LOAN ASSOCIATION.
By Fulton & Fulton, Attys.

GRANGE INSURGENTS
IN NATIONAL GRANGE
WIN SIGNAL VICTORY

Columbus, O., Nov. 18.—Gleaning of success for the insurgents were seen when members of the anti Jones faction in the National Grange succeeded by a good majority in securing the trial of State Master Kegley of Washington, before the entire body instead of the Executive Committee, which they asserted had been packed for Mr. Kegley's decapitation. The time of the hearing was set for today.
The case against Kegley was filed by S. J. Hill relative of James J. Hill, who was an opponent of Kegley for the office of State Master in Washington. Hill, it is stated has brought a large number of witnesses to the meeting here to substantiate his charges.
Master Creasey, of Pennsylvania, an insurgent introduced a resolution providing that the salary of the National Master be increased from \$4,000 to \$5,000 a year, and be required to devote his whole time to grange work.
The resolution, which was referred to the Finance committee, has the favor of many delegates, including, it is said, a large proportion of the middle-of-the-road group, which claims to be non-partisan.

It was suggested that some man of the caliber of Kenyon Butterfield, president of the Massachusetts Agricultural college, or C. Holden, Superintendent of the Iowa Experiment Station or Alva Agee, agronomist of the Pennsylvania State Agricultural College be selected.
"Anyone but a man who can be controlled by Aaron Jones," is the cry of those who would see a reorganization of the official family of the grange.
Master C. S. Stetson, of Maine, announced that the Supreme Court of New York had enjoined temporarily the Clarksville, (N. Y.) Grange from expelling George P. Hampton, agricultural writer, against who charges had been preferred. Hampton is an insurgent leader.

National Secretary Freeman reported a paid up membership in 29 states of 103,262. The total membership, including those in arrears, is \$2,500,000 and \$600,000.
At an open session W. M. Hayes, Assistant secretary of Agriculture, United States Senator Obadiah Gardner of Maine; President Snyder of the Michigan Agricultural College; Dr. Edwards, of the Rhode Island State College, and Dr. Wheeler, of the Rhode Island Experiment Station made addresses.

Mr. Hayes, in his talk, advocated large families, and told of the work that the Federal Government is doing for the farmer. Senator Gardner pledged his support to agricultural measures introduced in Congress.
A resolution favoring the initiative, referendum and recall, including the judiciary, was prepared, and will be introduced at the earliest possible time.

A memorial on the death of Norman J. Coleman, of St. Louis, first Secretary of Agriculture in the United States, was submitted by Master Wolcott of St. Louis.
Women are playing a large part in the work of the grange, and during the sessions showed that they can use their voting power independently of the opinions or policies of their husbands. The wives of the grange masters who are delegates to the National Grange have voting power equal to that of their husbands.

A Father's Vengeance
Would have fallen on any one who attacked the son of Peter Bondy of South Rockwood, Mich., but he was powerless before attacks of kidney trouble. "Doctors could not help him," he wrote, "so at last we gave him Electric Bitters and he improved wonderfully from taking six bottles. It's the best kidney medicine I ever saw." Backache, tired feeling, nervousness, loss of appetite, warn of kidney trouble that may end in dropsy, diabetes or Bright's disease. Beware; take Electric Bitters and be safe. Every bottle guaranteed. 50c. at F. D. Hall's.

TO INVESTIGATE
POUGHKEEPSIE FIRE

Poughkeepsie, Nov. 18.—Police and fire authorities are today investigating a fire which last night endangered the lives of 500 girls and women, who were attending a woman's suffrage meeting here. The fire started in a heap of refuse beneath the stage and it is believed to have been the work of a hand of hoodlums who were refused admission to the hall.

OHIOAN LOSES SUIT FOR GIRL.

Chicago, Nov. 18.—Habeas corpus proceedings brought by A. M. Miller, of Cleveland, Ohio, administrator, seeking the custody of Mary Elizabeth Miller, eleven year old heiress, were dismissed today in the United States District Court. The girl will remain in custody of Mrs. A. B. Beighler of Oak Park, as guardian.

CATARRH OF THE HEAD
RELIEVED BY PERUNA

"Peruna
Is a Great
Medicine
and a
Fair Trial
Will
Convince
Any One
of its
Efficacy."

F. M. JOFFRION
Mr. F. M. Joffrion, cor. Seventh and D Ave., Bogalusa, Louisiana, writes: "This is to certify that the latter part of February I commenced taking Peruna for catarrh of the head, and have gained eleven pounds. Peruna is a great medicine and a fair trial will convince any one of its efficacy."
Catarrh for Four Years.
Mr. J. G. Steffe, R. R. 2, Sherman, South Dakota, writes: "For four years I had been a continual sufferer from that dreadful disease, chronic catarrh. I tried all kinds of so-called catarrh remedies and found no relief.
"I was advised by a friend to write you about my case, which I did, and you kindly advised me to use a course of Peruna and Lacupia, which I commenced at once and was surprised how it relieved me.
"I am happy to say I am a well man today. I take pleasure in recommending your great remedy to all who are afflicted with catarrh."
Chronic Nasal Catarrh.
Mr. Chas. H. Stevens, 122 Sixteenth St., Detroit, Mich., writes: "It affords me great pleasure to testify to the merits of Peruna as a remedy for catarrh.
"I suffered for some time with chronic nasal catarrh, but after five months' treatment, during which time I used seven bottles of Peruna, I am pleased to say that I am entirely well, there not being the slightest trace of catarrh left.
"Peruna is without a doubt (in my mind) the greatest remedy known for catarrh."

SOCIETY

Arthur L. Judson, who was formerly the director of the Conservatory of Music in Newark, is well known in Newark, is connected with Musical America. Mr. Judson writes from time to time some very able articles in that paper. One which is styled "The Passing of Music as a Luxury—The Growth of Music as a Necessity," appeared in a recent edition of that paper. It follows, in part:

"We hear much of the poorness of the business outlook in all commercial lines, but in spite of such unsettled conditions, the concert, teaching, orchestral and operatic outlooks continue even better than last year. Surely there can be no better argument in favor of the statement that Americans are becoming musical. In former years, whenever money was tight or business bad, the teachers and concert artists were the first to suffer, on the grounds that music was a luxury and not a necessity. Now, even with the pessimistic statements concerning business, the musical patronage, in all lines, continues to grow until those in authority predict (if one may use a term applied to the crops) a bumper season.

"That the Americans are growing in critical acumen as well as in spending power may be seen from the manner in which they have appreciated certain new artists. For example, take Alma Gluck. Two years ago she was not in the field, or at least was getting but a small return for her singing, but now she is completely booked for this year at prices averaging \$750! If there had been sensational advertising, or scandal, or tremendous exploitation, this would not be remarkable. But when it is considered that this momentary appreciation is the direct result of good work and the desire of the public to hear her merely because they like her singing, it points plainly to a most wonderful artistic growth. And what Alma Gluck has done and is doing, others can do. Never in the history of music in America has it been so easy for undoubted talent and ability to secure a hearing or an adequate return. In future years it will be still easier.

"And then consider the orchestra. The papers report almost weekly plans for new organizations. What if most of them do fall by the wayside? A few years ago they did not even talk about organizing orchestras! When the 90,000,000 of people in this country begin even to talk about music it is a promise of a remarkable development and a sign of an awakening to the value of the art."

Harry Armstrong entertained 35 of his girl and boy friends with taffy pulling at his home in Prospect street Thursday evening. Those present were: Misses Edith Fleming, Minnie Beck, Ethel Stortz, Hazel Coons, Pearl Iden, Vestal Wilson, Edith, Clara and Florence Bowers, Lulu Woolees, Marguerite, Hazel and Gertrude Harrison, Cora and Sofia

example, take Alma Gluck. Two years ago she was not in the field, or at least was getting but a small return for her singing, but now she is completely booked for this year at prices averaging \$750! Siegel, Blanche Tanner, Anna Belle Layton, Keuzel Roser and Helen Metcalf, Messrs. Roy Anderson, William Harrison, Coman Miller, Chas. Brown, Martin Davis, Walter Baker, Carl Duncan, Howard Workman, John Newberry, Ernest Glenger, Wilford Wilson, Lester and Harold Woods, Carl Goldenberg, Harry and George Armstrong.

Miss Lura Harter entertained at her home in Valandigham street on Wednesday evening, the Seven-Pedal Sewing Club. After spending about an hour in sewing, a delicious luncheon was served to the following members: Misses Minnie Beck, Edith Bowers, Edith Fleming, Vestal and Pearl Iden, Bertha Ellis and Lura Harter. Miss Mary Ellis was a guest of the club. After luncheon the time was spent in vocal and instrumental music. The next meeting will be held at the home of Miss Pearl Ellis.

One of the most interesting events of the week took place Thursday evening at the home of Miss Ida Phillips, near Taylor's Bridge, where about 80 young people assembled for a good social time.

The big tallies leaving Newark carried the following passengers: Misses Ida Phillips, Thora Slaughter, J. Romine, Pearl Norris, Dora Wilson, Florence Curtis, Olive Wilson, Myrtle Neighborger, Lena Anderson, Beatrice Martin, Rachel Rhodes, Leonora Sachs, Mary Edwards, Edith Williams, Florence Hamlin, Alma Hamlin, Helen Staugh, Maud Orr, Ruth Johnson, Lucille Conlon, Hazel Bales, Daisy Taylor, Messrs. Clinton Kelley, Kaylin Miller, Elias Edwards, Walter Baughman, Lester Hart, Harry Hayes, Cary Wolfe, Ulrick Stone, Fred Lippincott, Paul Snelling, Edward Schaller, Lester Kemp, Leroy B. Dowd, John Wheeler, Leonard E. Richardson, John O. Palmer, Walter J. Rauck, George M. Cousiac, Neil Jones, George Coyne, William Dewitt Palmer, Prof. W. C. Worstell.

The early part of the evening was spent in social parlor games and several musical selections rendered by Misses Florence Hamlin and Rachel Rhoads.

At about 10:30 the crowd repaired to the dining room, where a French pole luncheon was served, all taking an active part.

A delightful reception was given by Mr. and Mrs. Dillon E. Hankinson on Wednesday at their home in Central avenue, in honor of Mrs. Mary Johnson. Among the guests were Mr. and Mrs. Samuel Hankinson, Mr. and Mrs. S. O. Preston, Mr. and Mrs. W. F. Preston, Mr. and Mrs. J. W. Preston, Mr. and Mrs. J. A. Lingafelter, Mr. and Mrs. E. C. Morford, Messrs. Will Harris and S. R. Weaver of Mt. Vernon; Mrs. Mary Weaver of Columbus and Mr. F. Davis and Miss Lotta Hankinson. At the noon hour a dinner of several courses was served, after which a group picture of those present was made by Mr. W. A. Smith.

Of interest to the members of the local lodge of Elks and their friends will be the following invitations: The Entertainment Committee, Newark Lodge No. 331, B. P. O. Elks.

requests the pleasure of your company at its first Winter Dance in Assembly Hall, Tuesday evening, November twenty-first. Nineteen hundred and eleven Parkers' Orchestra.

Mrs. Frank Steinman entertained at her home on South Fourth street with a six o'clock dinner. Covers were laid for Mr. and Mrs. C. Grill, Mr. and Mrs. F. Sunderland and daughter Bertha. The out of town guests were Mr. and Mrs. H. Bader, Mr. and Mrs. J. Russell, Mr. and Mrs. D. Delay and Mr. Mark Sapp of Columbus. Miss Sunderland and Daisy Steinman were at the piano, while Mr. and Mrs. Delay rendered some excellent songs.

The Knights of St. John have issued the following invitations: Knights of St. John Will Dance Monday evening, November 20 nineteen hundred and eleven A. I. U. Hall Stevens' Orchestra.

A delightful masquerade surprise party was given in honor of Mr. Henry Vogel Jr., at his home in Pataskala street, Tuesday evening. The entertaining feature of the evening were cards and dancing. Refreshments were served at a late hour after which followed the drama of "Uncle Tom's Cabin." The principal characters of the cast were taken by Mr. Lawrence Schnell, Edward Adams, William McDonald and Leo Meyers.

The guests were: Misses Creta Priest, Elizabeth Stauch, Ella Cunningham, Minnie Stauch, Josephine Vogel, Hazel Stauch, Helen Vogel, Katherine Stauch, Myrtle Vogel, Minnie Murphy, Eva Handie, Gussie Stauch, Mrs. Daisy Little, Mrs. Mary Anderson, Mrs. Josephine Duncan, Mrs. Elizabeth Stauch, Mr. and Mrs. Ous Powell, Mr. and Mrs. Alfred Allison, Mr. and Mrs. Edward Vogel, Mr. and Mrs. Pocock, Mr. and Mrs. James Fitzsimmons, Mr. and Mrs. Henry Fitzsimmons, Messrs. Clyde Farmer, George Beck, Clyde Priest, Harry Ingham, Ralph Scultz, Edward Wilson, William Vogel, Henry Stauch, John Feldner, John Hawk, Henry W. Stauch, Henry Vogel and Fred Faatz.

Quite a number of the friends and relatives of Mr. and Mrs. Carl Ritchey called quite unexpectedly Thursday evening to remind them that it was the birthday anniversary of the latter. But they soon recovered from their embarrassment and the evening was spent in games and social talk. During the evening light refreshments were served. The guests departed, wishing them many more happy returns of the day.

Those present were: Messrs. and Mesdames Barton, Taverner, Barton, Nick Youse, Harvey Irwin, Joseph Watson, Frank Darnes, Oliver Williams, Ed Benner, Alva Hazelle, Charles Taverner, Dora Dushimer, Edgar Taylor, Mrs. James Taylor, Mrs.

George Vance, Misses Edith Thompson, Edith Layman, Edna Watson, Helen Watson, Maude Parr, Ethel Smith, Hazel Taylor, Gladys Youse, Maggie Taylor, Ruth Courson, Florence Hazlette, Bulah Darnes, Ream Benner, Mary Darnes, Clara Taylor, Messrs. Elmer Davidson, Charles Taylor, Charles Hawkins, Lorn Davidson, James Watson, Harry Cotterman, Stanley Darnes, Ray Brown, Allen Benner, and Hazel Darnes.

The following invitations were issued Friday and will be read with interest here:

Mr. and Mrs. John Sutphin Jones request the honor of your presence at the marriage of Miss Laura Beiter to

Mr. Lafayette Markle on the afternoon of Wednesday the twenty-ninth of November at four o'clock Monomoy Place Granville, Ohio.

The at home cards read: At home After the first of January 5336 Woodlawn avenue Chicago, Illinois.

Mr. and Mrs. A. W. Fox and son of Chicago Junction are visiting Mrs. Fox's mother, Mrs. Margaret Raison of Stanberry street.

The No Name Pedito club will meet at the home of Mrs. George Shultz in 52 North Pine street on Tuesday instead of with Mrs. Retherford.

Mrs. Guy Kleckley was the hostess to the members of the Colonial Sewing Circle on Friday afternoon. Delicious refreshments were served the members and one guest, Mrs. William Cooper will be the next hostess at her home in Hiley street, December 2.

Mrs. D. M. Jones was hostess on Friday afternoon to the members of her sewing club at her home in Locust street. After a few hours devoted to sewing dainty refreshments were served.

The Thursday Afternoon Bridge club was delightfully entertained at the home of Mrs. H. B. Anderson in Eighth street on the club day. After the game the souvenirs were awarded to Miss Cassie Hillier, Mrs. Jerome Ferguson and Mrs. Carl Dayton.

A delicious supper of several courses was served. The efficient corps of clerks of the F. M. Kirby Co., surprised Mr. and Mrs. F. E. Ryan at their home in North Fourth street, Friday evening. They presented Mrs. Ryan, formerly Miss Helen Kuppinger, who had been the bookkeeper for the Kirby company for the past four years, with a number of pieces of beautiful silverware as a token of their high esteem in which they held her. They left at a late hour, wishing Mr. and Mrs. Ryan many years of happiness and prosperity.

Mrs. W. A. Dorey has issued invitations for an afternoon of bridge to be held on Wednesday afternoon at her Hudson avenue home.

The Tuesday Afternoon Bridge club will have for hostess this coming week, Mrs. Kemper Scott.

Miss Blanche Price was hostess to the Friday afternoon Embroidery club at her country home near Chatham. The afternoon was devoted to needlework and social conversation. The guests of the club were Mrs. D. I. Stumb, Mrs. C. K. Price and Miss Mary Stump.

On Thursday last Mrs. William Neal was hostess at a bridge party given at her home in North Fifth street. There were five tables filled with players who participated in the game and an elaborate luncheon was served.

YOUNG BOY INJURED IN A BAD FALL

Carl Emery, son of Mr. and Mrs. Harvey R. Emery of 52 Fulton avenue, was seriously injured while in the gym at the Y. M. C. A. on Friday evening. Young Emery in company with several other boys was enjoying the pleasures afforded by the gym when the crowd dared him to jump and catch one of the swinging bars suspended over the swimming pool.

The lad had on other occasions caught the bar on the jump but on those occasions the pool was filled with water. On Friday evening it had been emptied and as the Emery boy leaped for the bar he missed it and fell to the cement pool floor below. He fell head first and struck the pool with great force, knocking him unconscious. He was carried to the office and Dr. W. S. Turner called. He found him to be suffering with a concussion of the brain and the lad remained in a coma state for over an hour. He also received painful bruises on the shoulders.

Later he was taken to his home in Fulton avenue and while he spit blood all night no serious results are expected unless a blood clot might form.

WILL CHOOSE TEAM FOR DEBATE FROM 24 CANDIDATES

The question for debate by the High School Debating association, including Mt. Vernon, Zanesville and Newark schools has been selected. It is: Resolved, "That Every State in the Union Should Enact Laws for the Compulsory Arbitration of Labor Troubles." The question is a trifle above the average selected for a high school debate and will tax to the utmost every effort of the debaters to cover it fully. The teams for the local school have not yet been selected, but there are 24 candidates and they will be chosen some time during the month of December.

Bargain Basement. Stephan's, Fourth and Main.

WOMEN JURY DISOBEYED THE JUDGE'S ORDERS

Los Angeles, Nov. 18.—"Ladies of the jury, the court instructs you to return a verdict finding the defendant not guilty of the crime as charged in the complaint."

Justice Melrose of Tropic so instructed the women's jury that tried George W. Sears on a charge of withholding wages from an employee longer than the time prescribed by law.

The 12 women filed out of the courtroom, each wearing an expression of sympathy for the young plaintiff, Calvin Enoch, aged 15, who wept when he told of toiling for the defendant.

When they returned Foreman Myra Shuey announced the defendant "guilty as charged."

The court gasped as he asked why the jury had disobeyed his instructions.

One woman said: "What did you bring us in here for if you were going to take the matter away from us?" Another declared: "We were empaneled to hear and decide this case, and we are going to do it. We believe the man guilty. He didn't pay half as much as he ought, and there should be a way to punish him."

Reluctantly they returned to the jury room. The form of verdict was made out as the judge directed.

BIG OIL WELL STRUCK TODAY NEAR GRATIOT

Gratiot, Nov. 18.—The people in this place and in the entire surrounding country are excited to the highest pitch by the drilling in of an oil well by the Columbus Natural Gas Company, about half a mile south of the city, that is estimated at 200 barrels a day. This is the Johnson well No. 2. It came in Saturday morning about 9 o'clock and the oil is flowing at a rate that bids fair to floor the surrounding country unless it can be controlled. Tanks for the oil are now on the road, but before they can reach here a large amount of oil will have been wasted. Many oil men, who have been in this vicinity for some time, are on the ground, and all the available land for miles around has been leased. It is the opinion of experts that one of the greatest lakes of oil in the country has been struck and will mean much for eastern Licking and western Muskingum counties.

WIND DEMOLISHED BIG CIRCUS TENT

Lake Providence, La., Nov. 18.—While 3,000 persons were witnessing the performance of a circus here yesterday, a violent windstorm demolished the main tent, severely injuring three spectators and three circus employees. The performance of several lions and tigers in an iron-barred arena had just been completed and the animals returned to their cages when the collapse of the tent wrecked the arena. A stampede of 13 elephants was narrowly averted.

Very sheer silk hosiery is the latest fad among women of fashion. Some of this is so exquisitely fine that one wonders at its durability. They say that the price of these is seldom a criterion of their wearing qualities. A \$3.50 stocking may break at the first wearing, whereas one at \$1.50 may last for months.

There is a \$1.50 stocking among the McCallum styles that is said to wear surprisingly long. It comes in all the staple colors.

Linoleum and Carpets. Stephan's, Fourth and Main.

Big reduction on all Children's, Misses' and Ladies' Coats. Long's Department store. 1633t

Underwear and Gloves. Stephan's, Fourth and Main.

HEART AND HOME TALKS BY BARBARA BOYD

Making a Bright Tomorrow.

HENRY WARD BEECHER once said, "The pattern which the loom of life was weaving when the sun went down, it still is weaving when the sun comes up tomorrow."

Some of us forget that. Life is gray and monotonous, and we go to bed hoping something magical will happen in the night, and we will awake to a day all brightness and joy. But the sombre colors we put in the loom when we went to bed, and which probably we have been putting in for days past, are the colors that will come out in the pattern in the morning.

If we have been weaving in discontent, that is what we must wake to on the morrow. Nothing is going to change this pattern in the night. We must make the change ourselves. We must look about and see reason for rejoicing in what we are doing, or else get into the work or the place in which we can rejoice. The dark threads that are left in the loom at night will still be there in the morning.

If we are weaving in worry because we are living beyond our means, rest assured we shall wake up to the same pattern on the morrow, unless we ourselves change it the night before.

If we are weaving in jealousy or anger or deceit, all these will await us at the break of day, and go right on making the pattern of our life, until we ourselves throw them out.

No magician goes to work at night to alter the pattern of our lives. If we want to wake to a different morning, we must ourselves get resolutely at work at the loom and throw out these things that are weaving a pattern not to our liking.

If we want a bright, happy day, then we must put in those things that are needed for this pattern—a contented spirit, a thoroughness in our work, a charitable feeling toward our fellow men, whatever it is that our special pattern needs to make it the beautiful thing we want it to be.

And the time to do it is now. If we are looking forward to a sad or gloomy or worrying tomorrow, begin right now to take out the strands that make this pattern, and to put in the ones that will make for joy and gladness and a light heart. For after all, life is the outward expression of the inner man. And we must make these changes in ourselves that we want to show in the pattern of life we are weaving.

Barbara Boyd

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.
It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

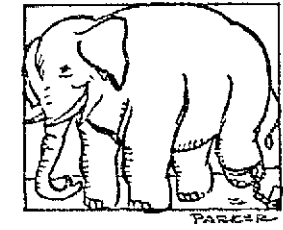

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

Look Out Make no mistake. Use only those medicines the best doctors approve. Should your doctor order Ayer's Sarsaparilla, well and good. If something else, still well and good. He knows best. Trust him.

3400-49910
If a lion has a loud voice, why did we give thy Dippy Dope a reverse? Or if the type set did the ink stand?

Daddy's Bedtime Story

"ONCE upon a time," began daddy, "there was an elephant, and he shook and shook."

Jack and Evelyn looked surprised. "Why did the elephant shake?" they were about to ask.

"The elephant thought shaking was a graceful accomplishment, something like dancing or walking on a tight rope. He said it helped him to think. 'The elephant was a great thinker, so he said."

"Now, the elephant shared the house at the menagerie with the camel, the buffalo, the mule, the dromedary and a lot of other plain, quiet animals of that sort. They said they didn't mind the elephant shaking when he was outside in the big yard of the menagerie, but on bad days when they had to be shut up with him and at nights when he would sway, sway back and forth in the dusky light it was most trying to their nerves. They said they never knew what minute the big beast would swing a little too much to the right or a little too much to the left and the walls would come crashing down around their heads."

"But when they spoke to the elephant about it he would look them calmly over and say that they must not be so fussy. He said they must learn to be calm and unruffled like he was."

"So the elephant added to his shaking exercise the little trick of clanking his chains. He would lift his huge feet and sway them gently back and forth while the iron links rattled dolefully and waked every napping animal in the house."

"One morning just before breakfast one of the keepers took him out and led him about a building. It seemed that the house was to be painted or something like that, and in the meantime other houses had to be found for the animals. None but the elephant was put into this house."

"Of course Mr. Elephant stayed out all day, but at sunset the keeper took him in and chained him up, as usual."

"This is comfort," the elephant began; "no nervous, fussy creatures to whine and complain, and as he swayed back and forth his trunk struck something soft."

"Whir, whizz, bang! A wider elephant you never saw, for the wasps settled all over him, and the next morning when the keeper came to let him out his trunk was a sight to see."

"And since then the elephant doesn't talk so much about other people being fussy and has a little more care for their comfort and feelings, for he doesn't know when he may strike another wasp's nest."

Saturday Special, \$3.50 and \$2.75 house blankets, \$2.75. 17-21 Oxley Bros. 33 W. Main.

Early Shopping Pays. There are many reasons why the shopping should not be put off until the last few days of the buying season. The fact that an enormous new stock is, or soon will be, ready to select from; secondly, many articles may advance in price as the supply diminishes and thirdly when the duty is accomplished a wonderful burden is lifted from the shoulders of the prospective giver of Christmas presents.

Change of Business. J. W. Lippincott has disposed of his feed store on South Fourth St.

Quarter Century Ago.

(From Advocate, Nov. 18, 1886.) The Daughters of Rebekah gave a social at the residence of Henry Mosier on Morris street, last evening. The funeral of Lynn H. Little son of Mr. and Mrs. E. A. Clapool took place from the home in Granville street today. St. Luke's Commandery, Knights Templar, was organized last night. An elaborate banquet was given at the Tabbs House.

Fifty Years Ago Today.

Nov. 18. President Jefferson Davis, who had formally been elected permanent president of the Confederate states on the 6th inst. by popular vote, presented his first message to congress. He said the south could resist the north indefinitely.

Twenty-five Years Ago Today.

Thomas Stevens, the bicycle traveler, who started on a world tour at San Francisco, April, 1884, reached Shanghai, having covered 12,000 miles on his wheel. Chester Alan Arthur, twenty-first president of the United States, died in New York; born 1830.

to Kreiger Bros., and they are now in possession. Mr. Lippincott has opened a bird and general poultry supply store at 61 Hudson avenue, Ladies' Night.

The members of the Newark Masonic Club will entertain their ladies on Tuesday evening, Nov. 21. Address by Col. Curry.

Col. W. L. Curry of Columbus, will be in the city Monday evening and address the allied patriotic organizations at Memorial Hall.

Lives in Canal Street. The woman arrested at 67 1/2 W. Canal street Thursday on complaint of her mother, on the charge of running a disorderly house, was not Mrs. Lillian Bush of Wilson street.

Light Police Court. A man charged with being drunk appeared before the mayor this morning and received a fine of \$5 and costs. He was taken to the county jail, where he will work out his fine.

Turkey Dinner. At First M. E. church Thursday, Nov. 23, 4:30 to 7:30. Turkey, dressing, mashed potatoes, gravy, celery, slaw, cranberry sauce, bread, butter, jelly, plum pudding and coffee, 85 cents. 18-21-23

Lost Auto Tire. Acting Sealer of Weights and Measures James Richter reported to the police Friday night that he had lost an automobile tire, which he supposed was stolen, and asked them to try and locate it for him.

Sunrise Meeting. The Thanksgiving sunrise prayer meeting of the United Young People's Societies will be held Sunday, Nov. 26, at 6:30 a. m., in the First Presbyterian church. The topic for discussion is to be "Gratitude." Psalm 116.

Old Guard Attention. The members of Company B, Old Guard, will attend the banquet given by the Sons of Veterans Monday night. They will meet at the Central Fire Department to move at 7:30 o'clock. The drum corps will also come in full uniform.

Accepts Canton Position. Harry Lytle of this city, who has been in the employ of a commercial printing plant at Marion, O., as expert pressman, has resigned his position in that city to accept a more remunerative one at Canton, O., with the Roller Co., and will leave for that place tomorrow, beginning his new duties Monday morning. Mr. Lytle will move his family here in the near future.

First Presbyterian Church Suppers. The First Presbyterian church ladies, who have been serving Saturday night suppers for the past three years and by their efforts are helping materially to pay for the new church, had a home night last Saturday, when 610 suppers were served. The netted ladies \$75. Upon the same date a year ago 587 suppers were served, netting \$72. Announcement was made today that an all day dinner, beginning at 10:30 a. m., will be served at the First Presbyterian church on the Saturday before Christmas. The large attendance at these suppers during the past three years testifies to their popularity and excellence.

Food cooked in paper bags can not burn or be undone or overdone, is the claim made on behalf of the new system of cookery.

Saturday Special, \$3.50 and \$2.75 house blankets, \$2.75. 17-21 Oxley Bros. 33 W. Main.

Go to Long's for Dry Goods and Notions. 16-21

Now is the time to buy sleighs cheap, before the snow comes. James E. Jones, Elmwood Court. 18-21

TAR AND FEATHER TRIAL MONDAY

Lincoln, Neb., Nov. 18.—A jury was obtained in the "tar and feather" case today and the trial was set for Monday. Miss Mary Chamberlain, the victim of the tar party, will be the first witness called to the stand by the prosecution. She will tell her story of the attack and subsequent tarring and feathering. The services of prominent Atlanta, Ga., lawyer have been offered her today to aid

in the prosecution of the five remaining defendants.

FREE TO ASTHMA SUFFERERS

A New Home Cure that Anyone Can Use Without Discomfort or Loss of Time.

We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development, whether it is present as occasional or chronic Asthma, our method is an absolute cure. No matter in what climate you live, no matter what your age or occupation, our method will certainly cure you right in your own home.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumigations, patent smokes, etc., have failed. We want to show everyone at our own expense that this new method will end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time.

This free offer is too important to neglect a single day. Write now and begin the cure at once. Send no money. Supply mail coupon below. Do it Today.

FREE ASTHMA COUPON. FROSTER ASTHMA CO. Room 756B, Niagara and Hudson Sts., Buffalo, N. Y. Send free trial of your method to:

NOTICE

Notice is hereby given that the proposed new schedule of rates for Electric Current submitted for approval by the Licking Light and Power Company will be investigated by the Public Service Commission of Ohio in the Council Chamber, at Newark, Ohio, November 28th, 1911, at 9:00 o'clock a. m.

This investigation will be public and all interested persons will have the opportunity to be heard.

The Public Service Commission of Ohio.

C. A. RADCLIFFE, Sec'y.

DIVORCE GRANTED. The divorce case of George W. Fleming against Bertha M. Fleming was heard by Judge Hunter. The parties were married Dec. 13, 1910. The plaintiff claimed that his wife deserted him one year and thirteen days after their marriage. The judge after hearing the testimony, granted the decree.

THE SCIENCE OF FARMING

SEED INFORMATION

BY H. L. BOLLEY,

Botanist North Dakota Agricultural College.
ON ACCOUNT of the work of the pure seed laboratory, both seedsmen and farmers are expecting much of the laboratory with regard to the sources of seed. We are receiving many letters asking where certain sorts of seed can be procured. The seedsmen write to us asking what farmers they may address with a view of procuring certain kinds of grain and forage seeds. Individual farmers often write to know of what seedsmen or farmer they may hope to procure pure strains of the various types of field seed, including especially the grass seeds, winter wheat, Scotch life and blue stem, the various varieties of oats, winter rye, spring rye, bromo grass, timothy and many other types of seed.

I am sending this circular to you asking you to keep us informed as to the kinds of seed you have on hand for sale for seed purposes. We hope also that you will send to us a liberal sample stating whether you consider it is clean or whether you intend to clean it. We will make you a report regarding the condition in which we find the seed, both as to purity and viability. If found suitable for sowing purposes, we will place your name on a list which will be sent to all persons who wish to purchase good seed. This will help both the seedsmen and the producer of good seeds. Those who wish to buy a particular kind of seed of a particular quality will naturally correspond with the persons or firms at nearest shipping point.

THE AYRSHIRE COW

By
C. M. WINSLOW

THE county of Ayr, in which the Ayrshire breed of cattle originated, is situated in the southwest of Scotland, backed by mountains on the east and washed by the ocean on the west, having the form of a crescent and embracing the Firth of Clyde in its circle. The face of the country is hilly and rises from the level of the sea some 2,000 feet to the top of the mountains on the east. The soil is strong and somewhat heavy, being a clay and loam, but thinner on the tops of the hills and mountains, the whole being originally covered with a dense growth of timber. The climate is moist, with a temperature ranging from about 25 to 65 degrees, with a mean temperature of about 47 degrees, regulated by its proximity to the sea and with frequent rains, which are favorable to growth of grass, giving luxuriant pasturage, though sometimes the country is swept by fierce coast storms.

The Ayrshire is probably the youngest of the thoroughbred dairy breeds, and though her origin is veiled in some obscurity, there are many things that confirm the theory that the native wild cattle of the country are the foundation of the Ayrshire of modern times. The original native wild cattle of the country were said to be white, with

red ears and black noses, high, white horns with black tips, with an animal now and then having more of the brown, black or red, very wild, and the bulls fierce, but when calves are taken young grow to be quiet and tame. This theory seems the more reasonable when we consider how easily the Ayrshire color reverts to the white.

The first we hear of any effort being made to improve the native stock of the country was about the year 1700, and this was said to have been accomplished by selection and better care.

We read from Aiton that about 1750 the Earl of Marchmont purchased from the bishop of Durham, and carried to his seat in Berwickshire, several cows and a bull of the Teeswater or other English breed, of a brown and white color. He also writes that about 1770, bulls and cows of the Teeswater or Shorthorn breed were said to have been introduced by several proprietors, and it is from them and their crosses with the native stock that the present dairy breed has been formed.

In 1811, in "Survey of Ayrshire," Aiton writes that the Ayrshire dairy breed is "in a great measure the native indigenous breed of the county of Ayr, improved in their size, shapes and qualities, chiefly by judicious selection, cross coupling, feeding and treatment for a long series of time and with much judgment and attention.

From about the beginning of the last century we find frequent mention of efforts for improvement in the shape of body, and especially in the shape of the udder.

At the present time writes Professor Fraser:

"There are two types of Ayrshires in Scotland; the show type and the producing type. The show type has been developed for the show ring, and bred for beauty alone. The genuine show udder must be compact and closely attached, both before and behind. The udder must be flat, with no indentations between the two halves, and the udder must not protrude behind, but be carried up even with the thighs, and have small cylindrical teats, evenly placed on the flat bottom. This is the only kind of udder that can be shown many years in succession and not become too pendant for the show ring. Any intelligent dairyman knows that this type of udder is fleshy and does not belong to the best producers. This craze for tight, close, shallow udders started in the show ring about twenty-five years ago. It has been of untold damage to the Ayrshire breed and has split the breeders into two factions—one who is breeding for show and the other for production. The breeders who are breeding for production belong to test associations and keep accurate records of their cows. The latter cows have good udders that milk well away, and large, soft teats that are easily milked. One of the best authorities in Scotland upon this subject says: "The show ring

has been a curse to the Ayrshire breed. Ayrshires would be a different breed to-day had there never been a show. The leading exhibitors of show Ayrshires of the flat, fleshy udder type have not made money, even if they have sold their stock at large prices, because they did not get enough milk to bring up the profits. One of the leading exhibition herds produced only half as much per cow as did another herd bred for production alone. This shows the folly of running to fads. You American dairymen are making a great mistake in allowing showmen to be your importers, as they are taking over only the show type. By this means you are losing to the American Ayrshire the advantages of our record Ayrshires in the economy of milk production."

"I have seen more good Ayrshires in my six weeks' stay in Scotland in proportion to their numbers, and there are countless herds, than I ever dreamed of. Grand, big cows, good udders, that milk all away, good teats, great tortuous veins, cows that handle well, milk well and test well. I saw one cow milk fifty-one pounds of 5.1 per cent milk and another fifty-six pounds of 4.7 per cent milk on grass alone. Anyone wanting imported blood for their herds at home should insist upon knowing the records of the dam. When you consider that in 1908, 8,123, in 1909 over 9,000, and this year over 10,000 cows were officially tested, you can see how reasonable a request this would be."

STORING APPLES ON THE FARM

BY ALBERT DICKENS,

Professor of Horticulture, Kansas State Agricultural College.

FOR commercial undertakings, mechanical cold storage for apples seems to be the most effective and economical, but for local markets and home consumption, caves and climatic storage are sometimes more economical. Where there is any considerable quantity of apples, storage houses are good investments.

The management of a storage plant requires careful, systematic work. Many of the best plants now have thermostats and self-regulating apparatus. At the same time they are carefully inspected, and any considerable variation in temperature must be avoided. At the fair at Hutchinson this fall there were some very fine Winesaps that had been in storage since the first of November, 1910.

Storage is the last process in the good management of a fruit crop. Poor fruit will not store satisfactorily or successfully. The first requisite for successful storage is good fruit without blemish, insect or fungous injury, picked in time, and carefully handled from the tree until it is finally packed and deposited in the store room. To obtain these conditions the same methods are necessary in Kansas as in New England or the northwest. The trees must be kept in good condition, pruned, sprayed and given the right of way in the soil.

HOUSING COWS IN COLORADO

BY G. E. MORTON,

Colorado Agricultural College.

THE cost of producing milk has advanced rapidly of late years and has resulted in forcing the dairyman to pay closer attention to the methods of production. At the same time a demand has arisen for milk produced under sanitary conditions and many cities have compelled these conditions by establishing inspection. Chief among the items of equipment necessitated by such inspection is a sanitary dairy barn where cows may be milked with the least possible likelihood of the milk becoming contaminated either by filth or undesirable bacteria. And as such a barn can scarcely be built for less than \$50 per cow housed, exclusive of barn room for fodder, it will be seen that interest and depreciation charges on this equipment alone add quite a considerable amount to the cost of each cow's product in a year.

This fact, added to the knowledge that dairy cows are much better off when kept in the open air as much as possible, and that the leading dairy sections in Colorado have on the average less than two weeks of below zero weather at night, led the writer to believe that it is not necessary to build a barn with stall capacity for all cows in milk. And the experience of several good dairymen in the state bears out this belief. I know of two or three of the best herds in Colorado that are never housed except at milking time. In some cases a shed is provided to which the cows may go at will, and in other cases the cows are not sheltered except during milking time.

It is found that cows shrink in their milk flow when left out of doors during the brief period of cold weather which we usually get some time during the winter, but it is also found that they likewise shrink if hour continually during such a period if they are not accustomed to being confined. And in view of the better health of cows when kept in the open, it seems best to accept this brief and slight reduction in milk flow rather than go to the expense and labor of housing in warm barns, with the increased danger of tuberculosis which this involves.

My observation leads me to the belief that the system best adapted to those sections of Colorado possessing mild winters, comprising practically the whole of the eastern and western slopes, is what may be called the shed housing system. This provides for feeding hay out of doors in yards protected from the sweep of the wind, with open or partially open sheds, where the cows may go at will. A milking barn is provided with room for as many cows as it is desired to maintain in one milking round or relay, and probably there should not be over three relays of cows. For example, a man having a milking herd of ninety cows would provide a milking barn for thirty cows.

SOILING IN FEEDING

BY C. C. HAYDEN,

First Assistant in Dairy Husbandry, University of Illinois.

BY THE term soiling we mean the cutting and feeding of green crops. When the cattle are kept in the barn or lots the entire summer and supplied green feed, it is called complete soiling. When kept on pasture and supplied green feed only during the shortage of pasture, it is called partial soiling. Little complete soiling is practiced in Illinois at the present time, but the use of soiling crops is increasing and will continue to increase as the price of land advances.

Advantages.—It has been shown that from two to five times as many cows can be kept on the same amount of land by this system. The animals can be kept in better form because of a regular supply of feed. There is less injury to the land by tramping than if these crops were pastured. The manure can be saved and applied where wanted.

Disadvantages.—More labor is required to gather the crops and care for the cattle. It requires more careful attention on the part of the herdsmen. A succession of crops is not always easily arranged.

CLEANING UP THE FLOCK

WHERE the pullets and hens are kept in separate flocks, it would make no difference with the pullets, but if kept in one flock the pullets will need the room and also they ought not to be disturbed and frightened as they would have to be in culling out the old hens. For these and other reasons it is better to get rid of the old hens at once, if it has not been done before this. It is a good plan to fatten the fowl before selling, if they are not in good condition, as a poor hen sells slowly at a low price, where a fat one will sell quickly at top quotations. If dressing the fowl before selling, it is necessary to fatten if good returns are expected. Even when shipped alive, it will usually pay to put them into good dressing condition. It means quicker sales at a somewhat better price, while the added weight pays well for the trouble and

cost of fattening. It is a comparatively easy matter to put fat on an old hen of any of the leading American breeds, and it takes only about ten days to do it. While I have sometimes fed for two weeks before shipping.

Having cleared off the old hens and made room for the pullets, the next thing in order is to get them into their quarters before cold weather comes. It is best to cull the pullets, as there are nearly always some that are not so good as the rest and which would not develop into good paying hens. One who has not tried it would be surprised to see what an improvement can be made by culling out ten from a hundred. It is much better to have ninety good ones than to have 100 with 10 per cent of them too poor to keep.

Do not keep a crooked backed pullet nor one that is very much undersized, as they not only look badly in the flock, but would not be likely to make profitable birds. For several years I have made a practice of marking the pullets, so that when it comes time to sell off the hens there is no danger of getting yearlings instead of 2-year-olds.

THE POTATO INDUSTRY IN THE NETHERLANDS

BY VICE CONSUL DIRK P. DE YOUNG, Amsterdam.

DURING the last sixty years potato farming has assumed large proportions in the Netherlands, due in great measure to the development of the potato flour industry. In 1860 the total potato area was 273,313 acres, while in 1908 there were 395,089 acres, which produced 86,798,977 bushels.

Seventy-four per cent of the potato crop is used for food and seed and the remainder supplies the raw material for manufacturing purposes. Three-fourths of the manufacturing is done in the province of Groningen, and the remainder is confined to three other provinces. Of the 48,315 acres of potatoes in Groningen, over 37,000 were planted for industrial purposes.

The scientific fertilization of the soil has become a very important feature of the potato industry in Groningen. Sometimes \$32 to \$50 worth of fertilizer is scattered on one hectare (2.47 acres) of ground. The land is valued at fully \$500 per acre and rents at \$22.50 per acre per year. The fertilizers consist of about 200 kilos of Chile saltpetre and 700 kilos of superphosphates to the hectare. Potatoes raised on this highly fertilized soil are not very edible, being cultivated principally for their industrial properties. There is a sentiment in favor of using the factory waste for fertilizing, but it has not proved a success as yet.

The methods of planting, cultivating and harvesting potatoes have not advanced as they should. Several picking machines have been tried of late, but not to the satisfaction of the planters. They want a machine that will not only dig the potatoes out of the ground, but clean off the dirt and empty them into a sack as well. A potato digger that merely uproots the potatoes, leaving them scattered over the ground to be picked up and sacked by hand saves little labor, as they still have to be cleaned, sacked and often shaken loose from the roots and vines.

In the co-operative potato producing and manufacturing enterprises the picking is usually let to contractors at from 9 to 10 cents per row of 140 meters (458 feet). That includes staking them in piles and covering them with straw. The laborers are also given free potatoes during the picking season. Sometimes these contractors are the heads of large families, but there are also contractors who sublet to individual workmen. They usually pay the pickers 6 cents per row. One person is able to pick seven of these rows per day of seven hours. The whole family usually joins in the work, camping out on the potato field during the season. Independent farmers often pick their own crops.

CERTIFIED TREE STOCK

C. W. WHALEY of the Ballygreen nursery, series, Hanford, Wash., is working on the plan for certifying trees whose fruit, under proper rules, have won merit at some public exhibition. A record of these trees and of the orchard is to be kept in a tree book or register. The trees must be vigorous and clean, and the fruit must be of size, color, quality and condition, and the certificate attested by a graduate horticulturist or recognized fruit jurist and signed by the owner. Annual inspection of the trees is to be required to insure proper fruit and care. Scions from such trees, in the opinion of Mr. Whaley, cannot fail to be superior in value for propagating young trees for planting by the fruit growers generally, than according to the system of cutting scions promiscuously without these precautions. An identification system checking against errors or carelessness while grafting, planting and digging must be adopted by the nurserymen. All this will add to the expense of producing the trees, but the increased percentage of good trees resulting, it is reasonable to believe, will more than justify their increased cost to planters.

THE ANDALUSIAN HORSE

BY CONSUL PERCIVAL GASSETT,

Jerez de la Frontera, Spain.

ANDALUSIA has always been famous for its fine horses and Jerez de la Frontera, since the seventeenth century, has been perhaps its most noted center for horse breeding. The town itself was one of the first and last Moorish strongholds in Spain and the best horses there were all bred from famous Arab stallions, so that what is known as an Andalusian, or Spanish, horse has always a good deal of Arab blood; it has, however, been crossed with so many other breeds, especially Flemish, that to-day the Spanish horse is not registered in the books of record of pure-bred animals.

The Spanish government has altogether six zones or stations for breeding horses for the army and maintains in each a deposita semental containing about eighty-five stallions, besides ten or twelve remount stations. At the deposita at Hospitalet, near Barcelona, only artillery horses are bred. There is also a government yeguada (from "yegua," a mare) containing 700 mares, at a farm called Moratalla, in the province of Cordova, and another is being formed.

The deposita semental at Jerez, established by the Spanish government forty years ago in an abandoned Carthusian monastery, called the Cartaja, is the best and that at Seville the next best in the zone of Andalusia, which is said to be the best zone in Spain.

Horse breeding is still carried on in Jerez, but in a much lesser degree; the demand, however, is always greater than the supply. The cause of the decadence in horse breeding in Jerez district generally is a lack of means, the increase in the use of agricultural machinery, and the fact that every year many stallions are purchased and sent to Central and South America. Portugal, too, does not breed horses, and every year buys about 2,000 in Andalusia. Another reason is that at the time of the South African war agents of the British army were paying \$170 apiece for mules, so that many mares in this part of Andalusia were put to breeding them. As it is estimated that about 55,000 mares were used in this manner, the yearly stock of colts in Jerez is, in consequence, now greatly diminished.

A Jerez dealer in horses, in an article on the Spanish-Andalusian horse, published in 1910 in the Diario de Jerez, says that although the Spanish horse has been somewhat superseded in late years for draft work by the half-bred Spanish-English hackney, yet its supremacy as a saddle horse, not only for fleetness and endurance, but for hard trips and long drives, is still maintained. As it is frequently been demonstrated, on hard trips the only horses surviving the extreme hardships and lack of food have been the Spanish, the imported horses having all succumbed. They undoubtedly are gifted with great endurance and have a tenacity of life truly remarkable.

It is stated that no matter what class of animal is brought to this part of Spain, in two generations it acquires this remarkable toughness and endurance. This is said to be due partly to the climate, but principally to their feeding on a rich, wild clover called "zulla," found only in the province of Cadiz, which people here say is the finest feed in the world for horses.

SUPPLY OF HORSES FOR INDIA

BY CONSUL GENERAL W. H. MICHAEL, Calcutta.

THE question of the supply of horses and mules for India, both for government and private use, is becoming a serious one. Formerly horses for hack and army purposes were supplied by Australia and to some extent the present supplies are drawn from that country, but the prices have become so high that the government and individuals are turning their attention to other countries to meet the demand.

A great many horses were supplied by Australia for use in the Boer war, and when the war was over there was a large number of horses thrown on the market. Within the last five years, however, the supply has not equaled the demand and prices have been steadily going upward. For a sound ordinary hack \$250 is asked in the Calcutta market and for anything out of the ordinary \$350 or \$100 is considered a reasonable figure. Owing to the great difficulties that the British army is experiencing every year in breeding its own horses, it has been compelled to keep up the supply from outside sources.

The general needs of India are to be considered as permanent, and at the present time the supply is not sufficient to meet the demand. Even in the matter of thoroughbreds for racing purposes India is no longer able to depend on Australia, as she has done for years, for the reason that thoroughbreds are more valuable there than they are here, owing to the richer purses offered by Indian clubs there.

Being shut out by high prices from England and Australia, dealers in horses have turned their attention to Argentina, where an almost unlimited supply is to be had at

reasonable prices. For a time the Argentine horse was at a discount, because of the unwise selection made by buyers for use in the Boer war, but it has been ascertained that in the interior, on the large horse farms, there are fine grades of horses to be had.

The breed of horses to be had in Oregon, Wyoming and Texas would be well suited to hack uses and for saddle purposes in India. Dealers in horses might avail themselves of cheap freights in filling out short cargoes of vessels returning direct to India from New York, Philadelphia and New Orleans. One owner of large stock farms in Texas wrote me that he could supply any number of such horses as I describe, but he let the matter drop at that point. If Argentina can supply horses suitable for use in India, either by the army or individuals, the United States ought to be able to do the same thing.

SELECTION OF POTATOES

BY A. D. WILSON,

WE HAVE noticed in attending a number of county fairs, that some of the people who have exhibited potatoes at these fairs have made very little effort toward selecting uniform and desirable tubers. While farmers are, in one sense, independent and can raise any crop they wish, if they would get the best price for their products they must raise the kind of products that buyers want. Large buyers of potatoes, who are really the people who make the market for potatoes, prefer and will pay more for smooth, medium-sized, uniform potatoes than they will for large, rough potatoes or potatoes not uniform in size. They pay more for two reasons: First, the smooth, uniform potatoes can be peeled with much less waste than can the other kind of potatoes; second, these smooth potatoes can be peeled much more cheaply, often with the paring machine; while with the rough, irregular potatoes it is impossible to use the paring machine without very great waste.

The grower who wishes to please the customers and thus get the top price for his products, will be very careful in selecting potatoes, especially for seed. In selecting potatoes for seed another point besides uniformity and smoothness must be considered; that is, one must know the general character of the type of potatoes grown, and hold closely to that type in his selections. Potatoes are likely to "run out" if the seed is not carefully selected. One of the first indications of running out is the slight tapering at the seed end, and no potatoes having a tendency to taper at the seed end should be used for seed. It is possible to maintain and even to improve a variety of potatoes grown in a locality, if careful attention is paid to the selection of seed and the preparation of the soil.

LAMBS FOR WINTER MARKET

BY EDGAR L. VINCENT.

TO GET the best of lambs it is necessary to secure the very best and most stocky parents. Here the heavier breeds of sheep, like the Hampshires, the Dorsets, Oxford or the Cheviots, stand high in popular estimation. Say you take an Oxford, then which there is no more fecund sheep, and breed to a Hampshire or a Southdown, and you get lambs that will sell well in a few months after birth. These sheep may be made to produce two sets of lambs in a single season by proper management. That is, by breeding in May, we may get lambs for the holiday trade, which always brings good prices, and still have those lambs out of the way in time to mate again for March or April lambs. This seems like hurrying matters up some, but these sheep do not worry about that, and there is good money in it for the farmer who is fixed for the work.

KEEP GOOD SOWS

IRREGULAR breeders, vicious sows and inferior milkers should be ruthlessly weeded out, but a really good and careful mother should be kept breeding as long as she continues to do so regularly and brings a fair number of even pigs, for which she provides milk in plentiful supply. Where the mating of gilts is concentrated it is better to be three months behind than three months too early, if the object in view is a useful sow that will not only attain her own natural size, but produce good, quick-growing pigs.

CO-OPERATION IN GRAIN

CLEANING

CO-OPERATIVE grain cleaning, we believe, will be as common in the future as is the co-operative creamery now. Why should a community invest in forty or fifty mills and operate them individually by hand when two fanning mills, connected with a small gasoline engine and operated by a man who gives time and thought to the work can do efficiently all of the grain cleaning and grading in the community.

FARMER AN EDUCATOR

BY C. R. BARNES,

Extension Division, Minnesota Agricultural College.

WE HAVE read much about carrying education to the farmer—giving his children better schools, and himself a larger share in the current educational uplift. But to-day the school organizations in not a few of the states are, curiously enough, turning to the farmers—not for pupils with whom to fill the schoolhouses, but to men competent to assume the teacher's platform as instructors in farming.

The demand for the farmer as an educator is one of the interesting features in the trend of modern education toward a combination of the practical and the theoretical. The agricultural college is nowhere fast enough supplying graduates in numbers sufficient to fill the current demand for instructors. Just as West Point has failed to supply enough graduates to officer the regular army, thus compelling the government to look among the civilians for lieutenants, so have the agricultural colleges failed to meet the pressing call of the rapidly organizing armies of agricultural students in the high and consolidated schools. In Minnesota, the grant of state aid for schools of either class depends on the employment of instructors of men skilled in scientific agriculture. This is the day of opportunity for the educated farmer.

This new development in educational ideas is to have a large share in the process now going on of elevating farming to the rank of a profession, and of making the farm attractive to the ambitious boy. The facts which he there masters—the skill he acquires in field and garden—may count largely, some day, when supplemented by sufficient schooling, in securing for him a coveted position, where to the ownership and revenues of a farm he can add the social power and leadership which attaches to the holding of a high position as an instructor. His combined opportunities will far exceed those of the average lawyer, doctor or trader.

TREES FOR THE HOME

BY A. PHELPS WYMAN,

Assistant Professor Landscape Gardening, University of Illinois.

SINCE a place is nothing if not useful, a first essential is trees, not for appearance merely, but for shade and protection. Most houses would look better if their predominating horizontal lines were broken by a tree standing in front of them, which at the same time gives shade just where it is needed. Another place for a tree is near a corner, not exactly symmetrical with another tree at the opposite corner, but so that the two frame the house. It is a temptation on a narrow lot to plant trees too thickly, but if they are twenty-five or

thirty feet apart and are near the boundary lines they are in a safe position. If it is possible to plant several trees, they are better not in straight lines, but with a sense of happening, as if they were a remnant of a former woodland.

To avoid crowding, one should so place his trees inside the yard that they will not touch the outside street trees, present or future, as the beauty of the yard depends in large degree upon the beauty of the street and should be secondary to it.

It is well to select the most substantial and hardiest kinds. There is no better tree than the American Elm, which has all the desirable qualities of hardiness, size, cleanliness and a beautiful form. There has been some prejudice against it because of losses by disease, but these are local and not likely to happen often.

In central and southern Illinois, the Tulip tree is excellent. It attains large size, is of good shape, grows rapidly and has beautiful flowers and foliage. It requires more care in planting than the elm.

The American and European Lindens are hardy, have round, dense heads of large heart-shaped leaves, and are fairly rapid growers.

The Ash, while not so rapid a grower is large and has much to commend it in its attractive form. The Green Ash is the more planted, although the White Ash is practically as good.

The Sugar and Norway Maples are excellent, though slower than the Elm, Basswood and Tulip trees. Both have dense, round heads, and are easily transplanted.

FOULTRY POINTS

WHEN killing many fowls, it pays to save the soft, white feathers, especially those of ducks and geese.

A leaky roof on a poultry house means colds and sick birds and consequent poor laying during the coming winter.

When the weather gets cold, do not let the fowls out on rainy days, but keep them in a dry place, if you expect early eggs.

The hen that has not molted by this time is not likely to be a good layer the coming winter and should be disposed of.

All windows in the poultry house should be so constructed that they can be opened when the sun shines to ventilate the house.

Make sure that all the chickens, fowls, turkeys, ducks and geese are well fattened before they go to market. It adds to the profits.

Do not expect the pullets to lay early unless they have plenty of good food, including a variety of grains and some form of meat.

Very often the home market for dressed poultry is more profitable to cater to than the city markets. When shipping to the latter, there is the expense of forwarding, commissions paid to dealers, possible loss, etc., to subtract from the selling price.

"I see more farmers reading that paper," commented a salesman of agricultural implements, whose business carries him all over the middle west—sometimes elsewhere—and I've often wondered why."

But we haven't.

In fact, we wonder why more don't read it, despite the great farming circulation we possess.

"See for yourself," we told this man. He was in our office.

He looked the paper over carefully, then he turned and said:

"Oh, I see; you are running a strictly farm paper. I always thought you just furnished the markets. Well, you've got the news all right, right up to the minute, too."

We were glad this man had seen for himself. We don't always want to do the showing. And that's why we want every farmer to see for himself. You may have a trial if you desire.

AMERICA'S GREATEST FARM DAILY

Chicago Daily Farmers and Brokers Journal

is pre-eminently a paper for the farmer, his wife and children, one that he always wants after he becomes familiar with its policy.

GRANVILLE CITY DADS IN SESSION

Hold Regular Meet Last Evening—News of the Hustling Little Village.

Granville, O., Nov. 18.—The regular meeting of the village council was held on Friday night, it having been impossible heretofore to secure a quorum of the members to transact business this month.

When Clerk Evans called the roll of members it was found that all were present, being Messrs. Ashbrook, Ferguson, Perry, Partridge, Rusler and Thomas, with Mayor J. M. Jones in the chair.

The minutes of the meeting held October 3 were read by the clerk and approved.

The reports of the Board of Public Affairs, the treasurer and the clerk were read and approved. Mayor Jones reported that he had collected \$22.50 for licenses, and that he had turned the same over to Treasurer Geach and held his receipt for the same. The report was received and ordered filed.

The regular finance ordinance was then passed after which there being no further business, council adjourned to meet at the call of the Mayor.

Although many hunting accidents are reported to have occurred in the neighboring counties during the past several days since the season opened, all hunters in this vicinity returned home without meeting with any serious mishaps.

Mr. and Mrs. James F. Glenn, well known farming people living near Mt. Gilead, Morrow County, spent Friday here. They have been visiting their daughter, Mrs. Laura Freeman at her home near Steubenville for the past several weeks, and were on their way home.

The many friends of the venerable E. M. Downer will regret to learn that he has been seriously ill during the past week.

There has been much complaint among the farmers this fall of corn molding in the shock, and investigation shows that corn in some places is infected not only with the ordinary molds with pink and white threads between the kernels and extending to

the cob, but also with what may prove to be a most serious disease, which starts with the cob, causing it to become rotten and extending to the kernels. As these molds are not mere accidents, but are plants having reproductive organs which are carried over from year to year in moldy grain or husks, special care should be taken to avoid infected ears in selecting seed corn.

Mr. William Sanford and his wife who have both been quite sick at their home on East Maple street, during the past few days. Mr. Sanford has been suffering with a severe attack of kidney trouble.

Mr. and Mrs. H. B. Williams of Fostoria, who have been visiting friends here for a few days, have returned home.

Not many of the Nimrods who have been scouring the fields during the past several days, since the opening of the hunting season, have been overburdened with game when they returned home. Only a comparative few had succeeded in bagging the limit of a dozen quail and many returned without any, but most of them had a rabbit or two, and some were loaded down with them.

It is reported that less than the usual acreage of wheat was sown in this part of the county this fall. Dry weather kept farmers from plowing and later wet weather interfered with putting the seed in the ground, but the growing plants are now reported in excellent condition.

Mrs. Stephen Ashton has returned to her home in Granville after a short visit with her brother, Benjamin Haynes, at his home near Hebron.

Miss Lucille Porter of Newark, has been the guest of friends in Granville for a few days.

Miss Evelyn King, of Elyria, O., who has been visiting friends here for a few days, returned home Friday.

Mr. and Mrs. Robert Bell of Newark, have returned home after spending a few days with relatives in Granville and Johnstown.

Andrew Hanson is spending a few days with friends in Fredonia.

Mr. and Mrs. Elihu Hayes, living south of the village, are the proud parents of a little daughter.

Miss Bessie Denman of Dennison, O., who has been visiting at the home of her brother, William Denman, south of the village, for some time, has returned home.

AMUSEMENTS

What the Press Agent Says

THE ORPHEUM.

Bobby Strauss and company will present the headline act at the cozy Arcade theatre the first three days of next week. Mr. Strauss is offering his original farce comedy entitled, "Beat-a-Biscuit." The playlet is full of amusing situations and the action is fast and interesting throughout. The comedy they offer is said to be more than clever and the kind everyone likes.

Fields and Hanson will be here in their late comedy musical act. Two more interesting people are seldom seen than these and they are sure to have a treat for you. Their comedy and little surprise are said to be the best yet and a comedy musical act is always in order. Vann and Hoffman as "The Dutchman and the Other Guy," will sing and feature the big song hits, "What Would You Do?" "Send Me a Postal From New York Town," "Alabama Queen," and "I'm Looking for a Sweetheart." Both are said to have excellent voices and know how to use them. The Two Tails will offer a new and up-to-date pantomimical novelty in magic in which they present novel tricks and effects, pretty costumes, attractive stage settings and good comedy. The Orpheumscope will have a new picture.

MARY EMERSON AND COMPANY FOR A WEEK.

Miss Emerson and her own company will be the attraction at the Auditorium theatre for all the coming week in a series of recent standard scenic successes. Miss Emerson has heretofore appeared in our city in one night stands and this season will be the first time in her career that she has been seen in a series of plays.

Each one is a tried success. Miss Emerson having appeared in the title role of them. "The Power," "Behind the Throat," "The Making of Madalena," "The Streak of Yellow," "Lady Frederick," "His Majesty and the Maid," "Will of the Wisp," "The Morals of Marcus," and a new farce comedy will be presented in the best of style and not on par with the average repertoire, but as a first class stock company.

All scenery, costumes, mountings and accessories are owned by the management, guaranteeing only the first quality of each performance as this point has never been lost tract of in the ar-

range of the plays for this season's tour.

The company is under the personal direction of Mr. Samuel Lewis, which in itself is a criterion of the class of productions that can be anticipated. Monday evening "The Making of Madalena" will be the initial performance and a fine production of this delightful play is sure to please the patrons of the Auditorium. Seats for the entire week can be procured at the advance sale now and orders will have quick attention. The usual matinees will be the rule during the week.

HARTMAN THEATRE, COLUMBUS, O.

Edgar Selwyn's fine comedy, "The Country Boy," comes to the new Hartman theatre for an engagement of two nights, beginning Monday, Nov. 20th. "The Country Boy" is thoroughly wholesome from beginning to end. The author has not injected a single situation into his work that could be criticized on the basis of coarseness or vulgarity. "Naughty Marietta" with Miss Emma Trentini as the bright particular star, will begin an engagement of two nights and one matinee at the Hartman, Friday evening, Nov. 24th. Miss Trentini's personal triumph is unmistakable, as she has created extraordinary interest among theatregoers and music lovers of every city in which she has sung. The score of "Naughty Marietta" composed by Victor Herbert is a most difficult test for the voice of this remarkable artist, but she easily and brilliantly meets its requirements and is assisted by Henry Taylor, a tenor of ability. Miss Marian Lee in the contralto role and Harry Turpin, a well known basso.

BETTER THAN SPANKING.

Spanking does not cure children of bad-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W., Notre Dame, Ind., will send free to any mother her successful home treatment, with full directions. Send no money, but write her today if your child has trouble with this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

MEETING WITH SUCCESS.

So great has been the success of "The New Code," written by F. E. Dumm of Columbus, that Tim Murphy, who is presenting it along with "The Poor Rich" by Paul Wiltach, well known playwright and author of "Thais," is, it is said, preparing to pass up the latter play and give his entire time to the presentation of Mr. Dumm's work.

During his recent engagement at Denver the audience almost went wild over "The New Code," which is a comedy having for its central theme the local option issue.

Mr. Dumm is a former newspaper man and is well known in Newark. He is a son of the late Robert Dumm, who for years was one of the best known Democratic editors and publishers in the state and was located at Upper Sandusky, O. Squire Alf Dumm of Franklin township, this county, is a cousin of Mr. Dumm's.

CAN'T CURE CATARRH

Stomach Dosing, Sprays and Douches Have All Failed.

There is only one way to cure Catarrh. Reach the raw, tender, inflamed membrane that is infested with catarrh germs, and destroy the germs. You can't reach the nooks and crevices with liquid preparations—there is only one way—breathe the antiseptic germ killing air of HYOMEI (pronounce it High-o-me) directly over the infested parts.

HYOMEI contains no opium, cocaine, or other harmful drugs, it is made of Australian eucalyptus, thymol and other Listerian antiseptics. It is guaranteed to end the misery of catarrh, asthma, croup and bronchitis, or money back.

Ask Evans Drug Store about the HYOMEI outfit today. He sells it for only \$1.00 and guarantees it.

NEWARK HIGH SCHOOL NOTES

Maurice Filha entered school this week. His parents have just moved to Newark.

Miss Marguerite Jones was out of school three days on account of her father's death. The pupils sympathized with her and rooms 15 and 17 remembered her by sending a beautiful floral tribute.

Miss Brillhart had charge of Miss Jones's classes during her absence.

The High School chorus will sing at the teachers' institute next Thursday. The public is invited to attend these meetings, which United States School Commissioner, Dr. Claxton, will address.

A stray dog has been coming to school quite regularly of late. Mr. Bowers, of the Physiology department has his eye on him.

A meeting of the boys was called Tuesday morning. The object of the meeting was to organize an athletic association. A committee was elected to draft a constitution, after which the meeting adjourned to meet next Tuesday morning. Those on the committee are: Mr. Patterson, Mr. Neptune and Mr. Simon of the faculty, and Dale Warner, freshman; Wm. Ashley, sophomore; Edwin Warner, junior; and John Ward and Roy Miller, seniors.

Newark High and Doane Academy failed to clash on the gridiron at the Y. M. C. A. field Friday afternoon on account of rain.

A meeting of the boys and girls was held Thursday at 3 o'clock to form Pedestrian clubs. The girls club is headed by Miss Foos and the boys by Mr. Carr. It is proposed to go out two or three evenings a week after school.

The Athletic association is arranging to have a cross country run to be

OBITUARY

JOHN MADDOX.

John Maddox, aged 81 years died at the infirmary Saturday morning at 10 o'clock, death being resultant from old age infirmities. His only surviving relative is one son who lives in Nebraska.

The funeral will be held Monday at 10 o'clock.

MISS CLARA TALLMAN

Word has been received in Newark of the death of Miss Clara Tallman. Miss Tallman is the daughter of Mr. and Mrs. James Tallman who formerly lived in North Fourth street. She was a student of St. Francis de Sales high school, but upon the removal of the family to Columbus she entered Mt. Carmel hospital to train to be a nurse.

She underwent an operation in June last for appendicitis and just recently underwent another operation. Death relieved her sufferings Friday afternoon at 4:30 o'clock. She is survived by her parents, two sisters and two brothers. The deceased had a number of friends in this city who will be surprised and grieved to learn of her death.

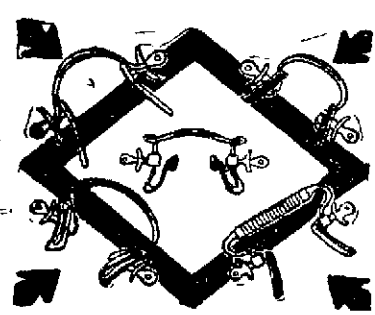

MRS. J. D. PETERS.

Word was received here that Mrs. J. D. Peters, a former resident of Granville died at her home in Columbus Friday night, after an illness of some time. Her maiden name was Ellen S. Rose and she was a daughter of Levi and Sophronia Rose, who was a son of Levi and Polly Rose, who were among the first settlers of Granville, having located there in 1805. She was married to William H. Clemens on January 15, 1857. By this marriage there were born five children, Belle Rose Samson of Columbus, O., Frederick Levi Clemens, deceased, Charles C. John LeClaire and Mrs. Maude S. Antell, Lancaster. Levi Rose died in Granville, May 16, 1879.

Mrs. Clemens was married to J. D. Peters, of Columbus, October 9, 1900. The body will be brought from Columbus to Newark Monday noon, and the interment will be made in Maple Grove cemetery that place at 12 o'clock.

Mrs. Will Blood of this city, is a grand-daughter of the deceased.

Six years ago, in the metropolitan province of Chihli, China, there were only about 8000 students, while now there are nearly 250,000 in modern schools.

CLIP OFF
YOUR NOSE?

Yes, often! If the clip didn't come from here.

We've all kinds of good clips for all kinds of noses.

It's wonderful what differences there are in clips—and noses—and eyes.

May we explain these differences to you?

RUFUS PUTNAM WRITES
ENTERTAININGLY OF TRIP
THROUGH WESTERN COUNTRY

Oakland, Cal., Nov. 12, 1911.

Editor Advocate: Pardon me for encroaching on your valuable space, but before leaving on our long trip to the Pacific coast, my friends made me promise a letter to them through the medium of the public print, telling what we saw on our 2,500 mile ride, and something of the beautiful cities lying on the coast of the great Pacific ocean in the Golden State.

We arrived in Chicago on time, rested three hours and boarded the Northwestern train in the handsome new depot, one of the finest and most complete passenger depots in this country. We rode all day through Illinois and Iowa, two of the best states in the union. The whole country, as far as the eye could reach, is as level as a floor, and soil as black as ink.

At Council Bluffs we changed to the Union Pacific and soon were whirling across Bryan's state, Nebraska, and I must say the politician has a hard time campaigning over the portion of the state through which we passed. We would travel for miles and miles and perhaps see a shanty here and there, or maybe a few tents in which homeseekers were living until they can do better. The chief products are alfalfa and sugar beets. Here and there, on small patches of productive soil, perhaps not more than half an acre, some poor fellow and his wife would be gathering the crop which must keep them in provisions until the next crop comes on. Passing through Nebraska, one gets very weary for about all one sees is waste land, with here and there a house. Rully three-fourths of what we saw of Nebraska is absolutely worthless. The most of the land is alkali and nothing will grow on it, but as I said before, where there is a spot or tillable land, it is planted in sugar beets or alfalfa.

We are now entering Nevada, but it is much like Nebraska, except there seems to be more good land, and a little more thickly populated. Now and then we see large herds of cattle grazing, but the raising of sugar beets seems to be the greatest industry. The sugar beet is large, and almost white, and some will measure eight inches in length. The natives are gathering their crops and hauling to the nearest station, which in many cases is miles and miles away. The wagons are built for the purpose, holding perhaps one hundred bushels and drawn by four and six powerful horses. The railroads have provided many switches and loading places in order to accommodate as many as possible. These loading places are built somewhat like the coal dumps along the eastern roads. The cars are run along side and the wagons and loads are hauled to the top of the dump or trestle and dumped, the beets tumbling over an iron grating, sifting the dirt from the beets. The cars used are larger than the ordinary coal cars and are open. I saw one train of 19 cars, all loaded with beets. The crop is so large in the productive part of the country, the railroads cannot furnish cars fast enough, and in order to get them out of the ground and receive their pay, the farmer hauls them to the railroad and pile them up. It is a common thing to see piles along the track perhaps two hundred feet long and eight or ten feet high, waiting transportation. Some day this vast territory of sage brush and alkali will be reclaimed and be the garden spot of the world. The trip through Nebraska and Nevada was very monotonous, nothing but beets, alfalfa, alkali, swamps, with now and then a little settlement. On two occasions we saw on tents, "Posse here," which suppose they are moved as the patrons move, for the most of the inhabitants could not stay long in one place, they would starve. Where the land is free from alkali and sage brush, they cut three crops of alfalfa a year and the fourth crop is left for winter pasture.

We are now in Colorado, and entering Denver, the great business city your readers have read and heard so much about. Denver is the best advertised city in this country. It sets aside a large sum of money each year for that purpose. We had but a few hours here, but were impressed with appearance of the city and the activity of its citizens.

At Denver we change to the Rio Grand for Salt Lake City. From here on to the Utah capital was one immense moving picture. Soon after leaving Denver we began to climb the first slope of the "Rockies." We have a heavy train of 13 loaded Pullman cars. It takes about all the power of two monster engines to pull the train. It is up and down, fast and slow. As we ascend and descend, tunnel after tunnel, some long, more short. The scenery is wild and grand, and one is kept busy, our eyes become weary. We look ahead and see the track like a ribbon winding its way up and around the mountains. Looking out on the left we look down some four or five hundred feet and see a beautiful stream of sparkling water flowing down the mountains until it is lost to view. Looking to the right and we see, so close to the side of the car, one can touch it, a solid wall of rock towering as high above the track as the gulch on the opposite is below. The summit reached we halt at Parmer Lake, a beautiful body of water, clear as crystal, formed from mountain springs. Here we are given 15 minutes for lunch, and you may be sure we were not long in getting to the lunch counter. Soon the old familiar call of the conductor is heard, and we hasten to the train, grabbing what we could of our lunch. Now we are descending and the train is making good time.

Our next stop was at the famous Colorado Springs and in plain view of Pike's Peak. The Garden of the Gods is about two miles out of the city.

Street cars run to it and to Manitou, at the foot of Pike's Peak. These are all grand sights and must be seen to get a full knowledge of their wonderful beauties. The National Printers' Home is located one mile from Colorado Springs, and a grand home it is. We are now entraining whirling through valleys, over mountains, grand sights meeting our eyes every minute. Here we are at Pueblo, where are operated the largest converters of steel in the world. The buildings are immense, nearly the whole population of Pueblo is employed in this converter.

Leaving Pueblo rush along through wild, entrancing scenery until we reach Salida, where the mountains are as high as Pike's Peak. Our train works its way in, and around like a serpent. The bends in the track running through the mountains are numerous. It is very common to see both ends of train from the car window. At one bend in the track, the engine and last car were not one hundred feet apart, yet there was a gulch between the two ends of the train nearly five hundred feet deep.

At Howard, Colo., the scene is almost past description. The train was running through the roughest of mountain country, when like a flash we are in the midst of one of the most beautiful valleys I ever saw, filled with thousands of fat cattle, and all among them were cowboys, mounted on their bronchos, watching their herds grazing. Just such varied scenes for miles. Rugged mountains of solid rock, bear and there a stream of clear spring water comes tumbling down the sides from hundreds of feet above, giving life to the seeming worthless mountains of earth and rock, now on rocky floor.

We are now climbing Tennessee pass, ten thousand feet above the sea. It is getting bitter cold. The double windows are freezing over. Were it not for our forethought to carry a blanket strapped on our suit case, we would suffer intensely. We have now reached the top of the mountain and away we go in, around and through the Grand Canyon into Glenwood Springs, right in the heart of the great canyon. What sights meet our eyes. For miles and miles it is a great open grand moving panorama. Rocks on either side so high we could not see the top from our windows. Talk about pictures, no painter will ever produce the equal of these beautiful walls of solid rock in their many colors. The mountain seems to be in layers, the resembling layer cake in colors. At the bottom is one color, say a dark brown, next layer yellow, next red and so on nearly to the top, all the different colors imaginable. To make them more imaginable the sun was shining on them. I do not think was ever produced the equal of these beautiful walls of solid rock in their many colors. The mountain seems to be in layers, the resembling layer cake in colors. BUSINESS MEN WILL SUPPORT MAYOR SWARTZ

Adopt Resolution at Meeting Held Friday Evening, Calling Upon All Citizens to Join in Movement.

A called meeting of the Business Men's Association of the city of Newark was held in the convention room of the court house on Friday evening. It was attended by a large number of the representative business and professional men of the city, who are eager to see that the incoming mayor, Mr. Swartz, receives all the assistance and backing possible in his efforts to run a clean city and enforce the laws.

Col. W. C. Wells, secretary of the Board of Trade, as temporary chairman, called the meeting to order and when nominations for permanent chairman of the association were called for, the names of George B. Sprague and Edward Kibler were offered. Mr. Kibler withdrew and Mr. Sprague was chosen unanimously.

Mr. L. B. Richards was selected as the permanent secretary. The resolution, which had been prepared by a committee, appointed at a previous meeting, was read, and remarks on its adoption called for. Mr. Sprague, on taking charge of the meeting, made a few pertinent remarks and told in a nutshell the object of the meeting—to adopt a resolution assuring the mayor that the business and professional men of Newark were with him in his efforts to enforce the law regardless of the outcome of the Rose Locke option election which would probably be held in Licking county in the very near future.

Mr. Sprague said: "We are here to show Mr. Swartz that we will stand behind him and assist him in every way, and we ask every good and loyal citizen of Newark to be with us in this movement for a better and greater Newark."

The resolution was next read, as follows:

Resolved, That without reference to our personal convictions upon the subject of the Rose county local option law, we are unalterably opposed to the habitual non-enforcement of the laws by our municipal executive officers and are in favor of the strict and impartial enforcement of all laws, and we respectfully call upon our incoming mayor to adhere to the policy of law enforcement, and as citizens we pledge to him our loyal support in so doing, and agree, by every honorable means at our power, to sustain his efforts, whatever may be the results of a re-submission of the liquor question to the voters of the county, and we call upon all citizens, without regard to politics or to their position on the liquor question, in accomplishing this result.

Following the reading of the resolution, remarks were called for and a number of the citizens of Newark gave their views on the question, confronting the citizens regarding law enforcement, among them being City Solicitor-elect Roderic Jones, who urged each and every citizen to come out and stand squarely for one side or the other in the coming local option election, and not to play both sides for policy's sake.

Edward Kibler said that Newark had had a fair example of the habitual non-enforcement of the laws and that the best way to get rid of a law that was obnoxious to a majority of the citizens was to enforce it, and that he was for law enforcement all the time. Rev. Warner, Rev. Bennett and E. S. Randolph also spoke in favor of law enforcement. W. H. Smith, E. T. Rugg, Charles Stonoff and several others spoke along the same lines.

The resolution was adopted unanimously and the meeting adjourned to meet at the call of the president.

HAS NOW JOINED DON'T WORRY CLUB

"I was flossing over a business matter this morning," said a well known business man to the Advocate, "and wondering what to do to correct a wrong impression that had arisen through no fault of mine, when I happened to pick up the following letter from a friend, which upon reading acted like a tonic. I have been reading Wall Mason's verses on the editorial page of the Advocate from day to day, and I like them, but this one, under the circumstances, coming to my attention by chance, just filled the bill. If other readers have worries, let them read the following lines:

"An hundred years ago and more, men wrung their hands and walked the floor and worried over this and that, and thought their cares would smash them flat. Where are those worried beings now? The bearded goat and festive cow eat grass above their mounded bones, and jaybirds call in strident tones. And where the ills they worried o'er? Forgotten all forever more. Gone all the sorrow and the woe, that lived a hundred years ago. The grief that makes you scream today, like other griefs, will pass away, and when you've cashed your little string, and jaybirds o'er your bosom sing, the stranger coming there to view the marks and scars that cover you, will think upon the uselessness of human worry and distress. So let the worry business slide; live while you live, and when you've died, the folks will say, around your bier: 'He made a bit while he was here!'"

Wants are worth reading tonight.

INFORMATION CONCERNING POSTAL BONDS

The postmaster general has issued information concerning postal savings bonds, which will be issued after January 1, 1912. Bonds may be obtained at any postoffice designated as a part of the postal savings system.

Depositors of the postal savings system may exchange the whole or part of their deposits on or after January 1, 1912 for United States registered or coupon bonds in denominations of \$20, \$100 or \$500 bearing interest at the rate of two and one-half percent per annum, payable semi-annually and redeemable at the pleasure of the United States after one year from date of issue, both principal and interest payable twenty years from date in United States gold coin.

Depositors of savings in the Newark postal bank are entitled to all the provisions of the new system.

Postal savings bonds are exempt from all taxes and duties of the United States as well as from taxation in any form by or under state, municipal or other local authority.

Applications for the conversion of deposits into bonds on January 1, 1912 by the postmaster at the deposit office where the certificates were issued. Postal savings converted into bonds are not counted as a part of the maximum of \$500 allowed one depositor and there is no limit to the amount of savings bonds which may be acquired finally by any depositor.

Postal savings bonds can be procured only by the conversion of postal savings deposits and will not be issued to persons who are not depositors.

\$3.50 RECIPE FREE, FOR WEAK KIDNEYS.

Relieves Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and Backs.

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, stinging, or burning of the bladder and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin, sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a quick recovery, you ought to write and get a copy of it. Many a doctor would charge you \$25 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like Dr. A. B. Robinson, R. 1429 Luck Building, Detroit, Mich., and I will send it by return mail in a plain envelope. You will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power.

It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.

NEWARK BOOKS

The forms for the booklet, Greater Newark, have been taken from the press and destroyed and no more copies can be obtained after the present supply is exhausted.

Everyone in Newark should get a few copies at least, of these illustrated booklets, and send them to their friends.

They are now on sale at 16 cents each and can be purchased at the Board of Trade room in the Trust Building, or at the news stands.

EXPENDITURES OF CANDIDATES IN CAMPAIGN

Friday was the last day in which candidates at the last election could file the statement of their receipts and expenditures and the Board of elections on Tuesday afternoon was a busy place. With but few exceptions every candidate on the three tickets filed the statements according to law showing what each candidate spent and to whom or for what each amount was expended.

Ralph Norpel, republican candidate for city solicitor, expended \$78, of which \$40 was a donation to the Republican campaign committee.

Roderic Jones, democratic candidate for city solicitor spent \$192 of which \$180 was contributed to the Democratic committee.

The Licking County Publicity Committee, Julius Juch, treasurer, received from various sources \$475, and expended \$365.10, leaving a balance of \$109.90.

William Wudhoop, Democratic candidate for city auditor expended \$211.50, while Leonard Kelly the Republican candidate failed to file his statement.

R. C. Bigbee, Republican candidate for mayor, expended \$129.50.

F. M. Swartz, who was successful on the Democratic ticket for mayor reports a total of \$187 expended.

W. F. Holton, candidate for justice of the peace on the Democratic ticket, spent \$51, while D. M. Jones, who was elected over him on the Republican ticket spent a total of \$25.67 of which \$21.17 went to the American-Tribune for cards and announcements in the paper and the balance \$4.50 was paid for muslin signs for his buggy.

Harry Russell president of the city council reports a total of \$35.00 expended.

The Democratic Campaign Committee filed the statement that its receipts were \$745.30 and that it expended \$743.88, leaving a balance of \$1.42.

Edwin R. Scott, independent candidate for member of the school board spent \$10 being the only candidate for this office who filed a statement of expenses.

John A. Pryor, Democratic candidate for councilman at large, spent \$15.00 to secure his election, while W. C. Butterworth for the same office expended \$14.75; Joseph Stasel for the same office expended a total of \$14.50 John Dwyer councilman at large spent \$14.00 to be elected; J. P. Baker for that same office spent \$14.50; Frank Knauer for councilman at large spent \$4.00.

W. A. Beckman, candidate for councilman from the Second Ward spent \$12.50; Julius Juch, candidate for councilman in the Fifth ward spent \$12.50.

J. R. Ashbrook Republican candidate for councilman from the Second ward spent \$1.50 for cards.

Robert Forgraves, a Democratic candidate for constable spent \$7.00 to gain his election.

Every one of the Socialist candidates filed their statements, but only two of them spent any money on the election. C. L. Tockey, candidate for Constable, who spent \$1.50 for cards and W. R. Preston, socialist candidate for councilman in the Fourth Ward paid out \$2 for cards. The socialist campaign committee spent nothing during the campaign.

W. H. Johnson, candidate for constitutional delegate reported \$36.36 in expenditures, while Henry C. Keller the successful candidate for constitutional delegate spent \$22.70.

Wayne Collier reported that he contributed \$50 to Swartz and \$50 to the Democratic committee during the campaign just ended.

Only Sober Men Wanted.

Every line of business is closing its doors to "drinking" men. If you are a drinking man, it may be your time next. Better stop drinking at once. Orine, the standard remedy for the liquor habit, will help you. By the aid of Orine thousands of men have been restored to lives of sobriety and industry. We are so sure that Orine will benefit you that we say to you that if after a trial you fail to get any benefit from its use, your money will be refunded.

ORINE is prepared in two forms: No. 1, secret treatment, a powder, absolutely tasteless and odorless, given secretly in food or drink; ORINE No. 2, in pill form, is for those who desire to take voluntary treatment. ORINE costs only \$1 a box. If you are interested in some one who drinks you owe it to yourself to come to our store and get free booklet and information.

Frank D. Hall, 10 North Side Square.

MEDAL FOR YOUNG CORN EXHIBITORS

An offer of a gold medal by Governor Harmon for the best five ears of corn in Ohio exhibited by a young man studying agriculture, is something that will interest the young men of Licking county. This medal will be awarded at the "grain battle of the Cornbelt," the corn and grain show to be held at the College of Agriculture, in Columbus next January. The trophy consists of an ornamental disc, suspended by chains from a bar in the form of an ear of corn. Engraved on the faces are the words: "Governor Harmon Medal for Sweepstakes in Corn, Ohio Agricultural Students' Grain Show, 1912." On the reverse side will be placed the winner's name. Nearly one thousand premium lists have been distributed to prospective entrants, and indications are that a great deal of fine corn will compete for the Governor's medal. In addition to the sweepstakes trophy, prizes will also be given for yellow corn, white corn, wheat, oats and barley.

The British mint recently turned out its first square coins—5 cent nickel bronze pieces for use in Ceylon.

A woman may feel helpless even in an employment agency.
